

**TO:** EZIZ Users  
**FROM:** CDPH  
**SUBJECT:** The 2016 Childhood Immunization Schedule is now available  
**DATE:** 2/3/2016

---

Dear EZIZ users:

The **[2016 Immunization Schedules](#)** are now available online. Every year, the Advisory Committee on Immunization Practices (ACIP) develops recommendations for routine use of vaccines in children, adolescents, and adults. When adopted by the CDC Director, they become official CDC/HHS policy. The [Morbidity and Mortality Weekly Report](#) includes a summary of childhood schedule changes.

CDC has also updated the following parent-friendly schedules to reflect the new 2016 recommended immunization schedule:

- [For children from birth through age 6](#) | [Spanish](#)
- [For pre-teens and teens from 7 through 18 years old](#)

CDC encourages organizations to syndicate content rather than copy a PDF version of the schedule onto their websites to share with visitors. Content syndication allows other organizations' websites to mirror CDC web content, with automatic updates whenever changes are made on the CDC site. This helps ensure that all schedules are current across the Internet. See how to [display the schedules on your site](#).

We encourage you to share this information with your colleagues and other interested parties by forwarding this message and/or by using social media to spread the message about the new schedules.
