- **DTaP**: Diphtheria, Tetanus, Pertussis
- **Polio**: Poliomyelitis
- **HepB**: Hepatitis B
- **Hib**: Haemophilus influenzae type B
- **PCV**: Pneumococcal Conjugate Vaccine
- **RV**: Rotavirus
- **HepA**: Hepatitis A
- **MMR**: Measles, Mumps, Rubella
- **Varicella**: Varicella
- **MMRV**: Measles, Mumps, Rubella, Varicella
- **Men ACWY**: Menetrie ACWY
- **MenB**: Meningococcal B

**Every Fall:** Flu Vaccine

This is a suggested schedule. For alternatives and details, including additional recommendations for high-risk children, consult the Recommended Immunization Schedule for Children and Adolescents Aged 18 Years or Younger, UNITED STATES, 2017.

1. Monovalent HepB vaccine is recommended for all newborns within 24 hours of birth.
2. A 2-dose series of HepB vaccine is not necessary at 4 months if doses are given at birth and 2 months but may be included as part of a combination vaccine. The final dose (3rd/4th) should be given after age 24 wks. and at least 16 wks. after 1st dose.
3. Administer first dose at age 6 wks-14 wks. (Max. age: 14 wks., 6 days). Max. age for final dose in the series: 8 months, 0 days. If any dose of RV5 is given or product is unknown, a total of three RV doses are needed.
4. This 6 month Hib dose is not indicated if PedvaxHIB® is used exclusively for the 2 and 4 month infant doses.
5. Minimum intervals: Ages 1-12 year: 3 months. Ages 13 years and older: 4 weeks.
6. MMR and varicella vaccines should typically be given unless the parent or caregiver prefers MMRV.
7. Final dose of PCV series should be given ≥12 months of age or after.
8. The 4th dose of DTaP may be administered as early as 12 months, provided at least 6 months have elapsed since the 3rd DTaP dose.
9. HPV vaccines should be given on a 0, 6-12 month schedule for 9-14 year olds (min. interval is 5 months). If patient is immunocompromised or initiates series at 15 years or older, use a 3 dose schedule (0, 1-2, 6 months).
10. A MenB vaccine series may be given to all persons 16 through 23 years of age. See MMWR for details.
