**FROM:** CDPH  
**SUBJECT:** EZIZ Update: Rotavirus Vaccine Information Statement (VIS)  
**DATE:** 8/27/2013

---

Dear EZIZ Users,

Please see this VIS update from the CDC.

The **rotavirus** vaccine information statement has recently been updated and is [now available](#).

Updated risk figures for intussusception following vaccination are the most significant change. Because this change concerns a potential adverse event, providers should begin using the new VIS immediately. An accompanying "provider information" sheet will be posted soon.

Translation of other languages will be available at a later date to include the changes.
