## EZIZ Update

### The 2019 Child/Adolescent and Adult Immunization Schedules

**For healthcare professionals:**

- [Recommended Immunization Schedule for Child and Adolescents, ages 18 years or younger, 2019](#)
- [Recommended Immunization Schedule for Adults, ages 19 years or older, 2019](#)
- [Additional immunization-related resources for Health Care Providers](#)

**For the general public:**

**Parent-friendly schedule formats**

- [Immunization Schedule for Infants and Children, 2019](#)
- [Immunization Schedule for Preteens and Teens, 2019](#)
- [Additional immunization-related resources for Parents](#)

[Additional immunization-related resources for Adults](#)

The image shows two overlapping screenshots of the CDC's recommended immunization schedules. The top screenshot is titled 'Table 1 Recommended Adult Immunization Schedules by Age Group' and lists various vaccines for different age groups. The bottom screenshot is titled 'Table 2 Recommended Child and Adolescent Immunization Schedules for ages 19 years or younger' and shows a grid of vaccine recommendations for children from birth to 18 years of age, with columns for age groups and rows for vaccine types.

You can [display the current schedules](#) on your website. (Note: whenever CDC makes a change, your page is automatically updated)
