# Vaccine Tips

---

September 2016

**If you work with patients, you need a flu vaccine every year.**

## **Know why?**

- Anyone can get sick from the flu, even healthy people.
- You can get the flu from sick patients and coworkers.
- Some people can be infectious and have no symptoms.
- If you get the flu, you might not feel ill, but you can spread it.
- Annual flu vaccine protects you, your patients, and your family.
