

TO: EZIZ Users
FROM: CDPH
SUBJECT: EZIZ Update: PCV13 Vaccine Information Statement Update
DATE: March 5, 2013

Dear EZIZ users,

Please see this note from CDC:

The **PCV13** vaccine information statement has recently been updated and is [now available](#).

This update incorporates information associated with new ACIP recommendations on vaccinating adults. It also uses a new slightly simplified format, designed to make VISs easier to read and process, and also to standardize the format. You may notice that some types of information not relevant to the patient at the time of the vaccination (for example detailed information about indications or catch-up schedules) have been eliminated.

A second document, designed as a quick reference for providers, gives additional information about the vaccine, including guidance on precautions and contraindications and links to appropriate ACIP recommendations -- information that should enable providers to answer questions patients might ask. It is linked from the PCV13 section of the VIS webpage as NOTE TO PROVIDERS. One of these notes will accompany each VIS updated from now on.

If you would like to be removed from the EZIZ list-serve, please go to <http://eziz.org/manage-subscription.php> to unsubscribe.
