HHS Resources for Increasing Influenza Vaccination among Healthcare Personnel in Long-term Settings

The Department of Health and Human Services (HHS) National Vaccine Program Office (NVPO) developed a toolkit to help long-term care employers and administrators promote influenza vaccination among their workforce and to help anyone working in LTC facilities understand the importance of influenza vaccination for LTC workers. The toolkit is available now at:

<http://www.cdc.gov/flu/toolkit/long-term-care/> to aid in early flu vaccination planning efforts! This toolkit is also available in Spanish at: <http://espanol.cdc.gov/enes/flu/toolkit/long-term-care/index.htm>
