

**TO:** EZIZ Users  
**FROM:** CDPH  
**SUBJECT:** 2014-2015 Immunization rates now available  
**DATE:** 3/4/15

---

Dear School and Child Care Staff:

The immunization rates for the 2014-15 school year are now available at [www.shotsforschool.org](http://www.shotsforschool.org). Click below to search by zip code or facility/school name to view immunization rates among:

- Children attending Child Care
- Kindergarteners
- 7<sup>th</sup> grade students

High immunization rates can help prevent school or child care closures and protect the health of our children. You are welcome to share this childcare/school “look-up” tool with parents and guardians, so that they can view immunization coverage rates in their community.

Thank you for your efforts in ensuring California’s kids are immunized.
