Dear EZIZ users,

Download new and updated vaccine information statements (VIS) for:

- [HPV Gardasil-9](#)  
This new VIS may be used immediately. Note that the VIS for standard Gardasil should not be used for Gardasil-9. The new HPV Gardasil-9 VIS should be used instead.
- [Rotavirus](#)  
This final version does not differ significantly from the previous "interim" edition, and existing copies of that edition may be used until stocks have been depleted.

Translation of other languages for both VIS will be available at a later date.
