The California Department of Public Health, Immunization Branch will be hosting a free webinar for California colleges/student health centers to learn more about the implementation of immunization requirements at colleges and universities. A panel of speakers from various universities will share their experiences and strategies for implementing immunization requirements, communicating with students, collecting and validating immunization records, and enforcing requirements. The University of California system will share their plans for phasing in immunization requirements over the next few years. We will have a live Q&A session with discussions on various topics presented.

By the end of the webinar, participants will be able to:

- Describe how 3 colleges successfully implement college immunization requirements
- Understand the potential use of the California Immunization Registry
- Identify at least 3 resources to assist in implementing college immunization requirements

Please forward this announcement to others who may be interested in this webinar.

We look forward to your participation!

--California Department of Public Health, Immunization Branch

After registering, you will receive a confirmation email containing information about joining the webinar.
