

TO: EZIZ Users
FROM: CDPH
SUBJECT: Pneumococcal Timing Schedules Updated
DATE: 9/9/15

Dear EZIZ Users,

The Advisory Committee on Immunization Practices (ACIP) recently revised their recommended [intervals between PCV13 and PPSV23 vaccines](#). In an effort to simplify the implementation of these recommendations, CDPH has updated two tools that you can download:

- The [Pneumococcal Vaccine Timing Tool for Adults](#)
- The [Pneumococcal Vaccine Timing Tool for Children](#)

Please share these tools with your colleagues and others who may benefit from using them. Thank you.
