

Dear VFA Provider,

It is now time to submit your fourth VFA Progress Report. Please submit the report before or on Wednesday, September 20, 2017. The data that you need to submit as part of the report are:

1. 317 VFA vaccine doses administered during the reporting period;
2. 317 VFA vaccine doses currently on hand.

Submitting the progress report is a VFA program requirement; the timely submission of complete and accurate data is important for our program's budget and program planning. To access the report, go to your MyVFCVaccines account and click on the "4th Quarter" button under "VFA Reporting". Thank you and please let us know if you have any questions.
