

Dear VFA Providers,

Please see below for an exciting upcoming webinar on vaccines for older adults. One hour of free continuing education will be offered.

Aging & the Immune System: Rethinking Vaccines for Older Adults

On **Tuesday, Sept. 26 from 9am-10am PT**, join the National Vaccine Program Office (NVPO) and Centers for Disease Control and Prevention (CDC) for the [webinar](#), *Aging & the Immune System: Rethinking Vaccines for Older Adults*.

During the webinar, you will hear from experts in immunology, aging, and adult immunization, including:

- **Andrew Kroger, MD, MPH**, Medical Officer, National Center for Immunization and Respiratory Diseases, Centers for Disease Control and Prevention
- **David Kim, MD**, Deputy Associate Director for Adult Immunizations, Immunization Services Division, Centers for Disease Control and Prevention
- **Albert C. Shaw, MD, PhD**, Associate Professor of Medicine (Infectious Diseases), Yale School of Medicine, Yale University and Yale New Haven Hospital
- **Stefan Gravenstein, MD, MPH**, Professor of Medicine, Warren Alpert Medical School and Brown School of Public Health, Brown University and Adjunct Professor of Medicine, University Hospitals Cleveland Medical Center, Case Western Reserve University

The webinar will include 1 hour of presentations and a Q&A. This event will also offer 1 hour of [free continuing education](#).

This webinar is collaboration between NVPO's UpShot Webinar series and CDC's Current Issues in Immunization NetConference.

Attendance

Attendance for each live webinar is limited to 1,500 registrants. We advise registrants to

log in early before a webinar begins to secure a virtual “seat.” Should you miss the live event, you can watch the archived version when it is posted later on CDC’s website.
