

TO: Child Care
FROM: CDPH
SUBJECT: Child Care: New Regulations in Effect July 1
DATE: **June 27,2019**

Dear Child Care/ Pre-Kindergarten Partner:

This is a reminder that new California childcare and school immunization [regulations](#) go into effect next Monday, July 1st, 2019.

Please take a moment to review:

- [Immunization requirements for children in pre-kindergarten](#)

What's new?

- Chickenpox vaccine is required at age 15 months and older, rather than at age 18 months and older.
- As children age into requirements, parents have 30 days to submit updated records showing the child has met the requirements. For example, when an already admitted child who is up-to-date on shots turns 18 months old, the parents have 30 days from the day the child turns 18 months old to submit records that the child has received the 4th dose of DTaP and 3rd dose of Hep B.

How can I learn more?

- [View](#) the webinar highlighting changes to pre-kindergarten and school immunization requirements.
