

For Providers

California COVID-19 Vaccination Program Update

Upcoming COVID-19 Vaccine Expiration Dates

Enrolled providers in the California COVID-19 Vaccination Program have vaccine inventory that may expire soon, including many lots of the Moderna vaccine. Be sure to reference the table of expiring lots below for a detailed list by product. Please see the [recent communication](#) about the vaccine expiry extension for Pfizer tris-sucrose (12+, gray cap) and Pfizer pediatric (5-11 years, orange cap) vaccine products.

We encourage all providers to:

- check your inventory
- dispose of expired vaccine
- update vaccine inventory records in VaccineFinder
- report vaccine waste in myCAvax
- utilize the [Vaccine Marketplace](#)

Please reference the [Vaccine Management Checklist](#) job aid for detailed guidance and links to other helpful resources.

Expiring Lots for January and February, 2022

Please continue to monitor expiration dates of vaccine inventory and follow a first in, first out inventory management practice to ensure that vaccines soon to expire are used first.
