

For Providers

California COVID-19 Vaccination Program Update

Dear Providers,

We learned today that the FDA has postponed their Advisory Committee Meeting to discuss Pfizer's request for authorization of their COVID-19 vaccine for children 6 months through 4 years of age.

According to [FDA's statement](#), they have been notified by Pfizer that, "new data have recently emerged regarding its emergency use authorization request for the use of the Pfizer-BioNTech COVID-19 vaccine in children 6 months through 4 years of age". Pfizer and FDA would like more time to consider additional information regarding the ongoing evaluation of a third dose as part of their decision-making for potential authorization.

FDA and other committee review meetings are yet to be set.

As a result, this product will not be available for pre-order for providers on Monday, February 14 as presented in the Provider Office Hours today. This timeline was contingent on FDA's EUA approval.
