

For Providers

## California COVID-19 Vaccination Program Update

# April & May COVID-19 Vaccine Expiration Dates

Enrolled providers in the California COVID-19 Vaccination Program have vaccine inventory that may expire soon, including many lots of the Moderna vaccine. Be sure to reference the table of expiring lots below for a detailed list by product. Please see the [communication](#) about the vaccine expiry extension for Pfizer Tris-sucrose (12+, **gray cap**) and Pfizer pediatric (5-11 years, **orange cap**) vaccine products. Janssen (Johnson & Johnson) received an expiration extension as well, please see this [communication](#) to learn more.

We encourage all providers to:

- check your inventory
- dispose of expired vaccine
- update vaccine inventory records in VaccineFinder
- report vaccine waste in myCAvax
- utilize the [Vaccine Marketplace](#)

Please reference the [Vaccine Management Checklist](#) job aid for detailed guidance and links to other helpful resources. Continue to monitor expiration dates of vaccine inventory and follow a first-in, first-out inventory management practice to ensure that vaccines soon to expire are used first.

List of the COVID-19 vaccine lots expiring in the month of **April 2022**.
