

## California COVID-19 Vaccination Program Update

Weekly Wrap Up – April 22, 2022

### Effective May 1, VaccineFinder Reporting Will Be Weekly!

Starting May 1, 2022, providers must report COVID-19 vaccine inventory **at least weekly by close of business on Fridays**. Please note: This is ONLY applicable to inventory reporting and all other requirements (including daily vaccine administration reporting) remain unchanged.

Thank you for your efforts to keep inventory in VaccineFinder up to date. As new vaccines are authorized, remember to [add new vaccine and NDCs](#) to your inventory and begin [reporting inventory](#) by Fridays close of business once shipments arrive.

If your site is no longer receiving specific vaccine products, or is no longer participating in the vaccination program, please zero out your inventory and VaccineFinder reminder emails will stop.

---

### Updated CDC Clinical Guidance for Second Booster Dose

CDC's [Interim Clinical Considerations for COVID-19 Vaccines](#) was updated to include additional guidance for the second booster dose.

People who are 50+, 12+ and moderately or severely immunocompromised, or who are 18-49 and received 2 doses of the Janssen (J&J) vaccine are eligible for a second booster.

Among those who are eligible, **the following people may consider a second booster dose as soon as possible:**

- People with certain underlying medical conditions that increase the risk of severe COVID-19 illness
- People who are moderately or severely immunocompromised
- People who live with someone who is immunocompromised, at increase risk for severe disease, or who cannot be vaccinated due to age or contraindication
- People at increased risk of exposure to SARS-CoV-2, such as through occupational, institutional, or other activities (e.g. travel or large gatherings)
- People living or working in an area where the COVID-19 community level is medium or high

Among those who are eligible, **the following people may consider waiting to receive a second booster dose:**

- People with SARS-CoV-2 infection within the past 3 months
- People who may be hesitant about getting another recommended booster dose in the future, as a booster dose may be more important in the fall and/or if a variant-specific vaccine is needed

To access a flier to post in your clinic, please visit [Second COVID-19 Vaccine Booster Dose](#).

## myCAvax Update

Get ready for Release 25 with myCAvax Maya!

Release 25 is going to be live next week on April 28<sup>th</sup>. There are exciting updates, including an updated process when there is a shipping incident with the redistributor. This week, myCAvax Maya navigates this shipping incident and has a much better experience with the automated email with next steps when a shipping incident occurs.
