

California COVID-19 Vaccination Program Update

Booster Recommendations

Boosters for 5-to-11-Year-Olds

On Friday, May 20, Western States Scientific Safety Review Workgroup (WSSSRW) published a [statement](#) expanding first booster dose eligibility to 5-to-11-year-olds in agreement with the Advisory Committee on Immunization Practices (ACIP), and Federal Food and Drug Administration (FDA).

Children five and older should receive a booster dose five months after completing a Pfizer vaccine primary dose series. Please consult the updated [COVID-19 Vaccine Timing by Age](#) job aid for more information.

Strengthening Second Booster Recommendation for those Immunocompromised 12 Years and Older and those 50 Years and Older

The CDC [strengthened the recommendation](#) that those 12 and older who are immunocompromised and those 50 years and older **should** receive a second booster dose at least four months after receiving their first booster dose.
