

TOP 5 REASONS

Your Kids Should Get the COVID-19 Vaccine

With students heading back to in-person instruction, here are some things you need to know about protecting your children with the COVID-19 vaccine.

Unvaccinated children are at risk of getting COVID-19, and can suffer very serious complications, and potential long-term impacts that we are still learning about. The vaccine is safe and effective, and no long-term problems have been seen for any vaccine.

The science behind the vaccine has been under development and studied by The U.S. Department of Health and Human Services for over 20 years.

Getting those who are eligible vaccinated can help keep school communities safe.

Kids have missed critical social and emotional milestones with their school community. Getting them safely back to the classroom and their favorite afterschool activities helps support their mental health and wellness.

Vaccines are safe, effective, and free, regardless of insurance or immigration status.

Get your children back to school safely. Get them vaccinated against COVID-19 today! Learn more at [VaccinateALL58.com](https://www.vaccinateall58.com).
