

Vaccine Management

Josh Pocus, My Turn

Dan Conway and Hannah Shows, myCAvax

R57 Enhancement: Restructured Virtual Assistant Helpdesk Menu

- The main menu on the 'How Can We Help?' Virtual Assistant pop-up window will be updated to cover all aspects of the provider portal.

Emergency Main Page / Site Search (Public)

- Simple 3 step process
- Link to screening form
- Medical Point of Dispensing (MPOD) location search
 - Integration with Google Maps

The screenshot displays the 'My Turn' website interface for emergency antibiotic screening and dispensing. At the top, there is a navigation bar with links for Home, Find a Clinic, Vaccine FAQs, Vaccines by Age, and Digital Vaccine Record. The main heading is 'Emergency antibiotics screening and dispensing' with the subtext 'Protect yourself and your family - Act Now'. Below this, a 'How it works' section outlines a three-step process: 1. Complete the Antibiotics Screening Form, 2. Use the dispensing location tool, and 3. Bring a copy of responses to the location. A 'Ready to start?' section features a button for the 'Antibiotics Screening Form'. The 'Find an antibiotic dispensing location' section includes a search form with fields for Zip code (94541), Medical consult on site (All), and Search radius (10 miles), along with Search and Clear buttons. Below the form is a map showing two locations in Los Angeles and Irvine, CA, with their respective hours and contact information. The footer contains logos for CA.gov, CDPH, and My Turn, along with a link to the Privacy Policy.

Antibiotic Screening Form (Public)

- Simple multi-question screening form
- Results shown for each person
- Results collapse to allow for more patients to be added

My Turn

Please ensure you take a screenshot or print your results to share with the dispensing site. This information will not be saved.

Antibiotics Screening Form

Please complete the information section and answer the antibiotic screening questions for each person you are picking up for. You can add additional people as needed by clicking "Add another person" at the bottom of this form. Click "Next" once you've entered all the required information for each person you're picking up antibiotics for and the final antibiotic count for all people will be displayed.

Person 1 John Doe Age 50 years Doxycycline or Ciprofloxacin

Person 2 Jane Doe Age 40 years Medical consult

Enter information Clear

***Name**

***Age** Please specify patient age and select years or month. Do not enter your birthdate. years

Please answer the following screening questions.

***Has this person ever had an allergic reaction to Ciprofloxacin, Levofloxacin or any other 'floxacin' drug?** Yes No

***Has this person ever had an allergic reaction to Doxycycline, Tetracycline or any other 'cycline' drugs?** Yes No

***Is this person currently taking Tizanidine (Zanaflex)?** Yes No

***Does this person have renal (kidney) disease or Myasthenia Gravis?** Yes No

***Does this person have renal (kidney) disease or Myasthenia Gravis?** Yes No

***Is this person under 18 years old and weigh less than 67 pounds?** Yes No

***Is this person under 18 years old and weigh less than 76 pounds?** Yes No

***Is this person physically unable to swallow pills, even if their life depended on it?** Yes No

Your recommended antibiotic is:
Doxycycline with crushing instructions

LHD MPOD List View (Community Portal)

- Salesforce Backend MPOD Screen
- Simple setup form to create new MPOD Site
- Utilized by LHJ PHEP coordinators
 - 2 coordinators per LHJ identified

The screenshot displays the myCAVax California Vaccine Management System interface. At the top, there are navigation links for 'Home' and 'Reports', and a search icon. The main heading is 'Public Health Emergency' with a biohazard icon and a 'List a new location' button. Below this is a 'Search MPODs' section with filters for Status (Active), Antibiotics availability (All), and City. A 'Search' button and a 'Reset' button are also present. The 'MPODs' section shows a table with 4 items, sorted by date. A tooltip indicates that an active MPOD site enables public visibility on My Turn.

Long-Term My Turn Roadmap

By May 2025

- **Public Health Emergency Preparedness Flow (PHEP) MVP:** Create a new public and clinic experience to combat bioterror events and allow the public to find and screen for antibiotics
- **Public Health Emergency Preparedness Flow (PHEP) Enhancements:** Expand the PHEP experience with new features including inventory management, 50-day antibiotics and vaccination reminders, and reports and dashboards
- **Vaccine Locator Page Scheduling Links:** Add clinic specific links to the vaccine locator search so that the public can schedule a vaccine from the map search page

By June 2025

- **Public Health Emergency Preparedness Flow (PHEP) Enhancements:** Continues the expansion of PHEP by adding potential features such as secure delete / archive screening data, archive Medical Point of Dispensing (MPOD) sites, bulk upload and edit MPOD sites, and manage users
- **Annual Flu Product Updates:** Adds the new 2025 flu products and deactivate the 2024 products across all My Turn

Join us: California Immunization Coalition (CIC) 2025 Annual Summit!

Join us at the 2025 CIC Summit to collaborate in support of the mission to improve immunization rates for all Californians.

- Featuring speakers, expert panels, workshops, and opportunities to discuss issues and create partnerships with leading figures in immunization and healthcare advocacy across California.

- ❖ **When:** Tuesday, **April 29** [10am to 5:30pm] & Wednesday, **April 30** [7:30am to 5pm]
- ❖ **Where:** Riverside Convention Center – *Riverside, CA*
- ❖ **Agenda Here:** [CIC 2025 Summit - Full Agenda](#)
- ❖ **Register Here:** [2025 Summit Registration Form – California Immunization Coalition](#)

myCAvax Flu & COVID Orders Dashboard – Overview

Providers can access the Flu & COVID Orders Dashboard through the associated tab on the ‘Vaccines for Children – Dashboard’ page.

- ‘**2024-2025 Doses Ordered vs. 2024-2025 Season Target**’ section overview:
 1. **Total Ordered** - Total doses ordered for the season
 2. **Season Target** - Number of doses to order for the season
 3. **Season Target %** - Ordering progress % (Doses Ordered / Target Doses to Order)
 4. **Amount Needed to Reach Season Target** - Remaining doses to order needed to reach season target
- ‘**2024-2025 Doses Administered (Self-Reported) vs. 2024-2025 Season Target**’ section overview:
 5. **Total Doses Administered** - Total doses administered for the season
 6. **Season Target** - Number of doses to administer for the season
 7. **Season Target %** - Administration progress % (Doses Administered / Target Doses to Administer)
 8. **Amount Needed to Reach Season Target** – Remaining dose administrations needed to reach season target

myCAvax Flu & COVID Orders Dashboard – Filters

- The 'Account Region' and the 'Vaccine Type' filters allow providers to narrow dashboard results by a particular Account Region or Vaccine Type, respectively.
 - **Note:** Providers should use the 'Account Region' filter only if they have clinics in multiple regions.

The screenshot shows the 'Vaccines for Children - Dashboard' with the following data:

Account Region	Vaccine Type	Total Doses Administered (Self-Reported)	Season Target	Season Target %	Amount Needed to Reach Season Target
All	All	160	500	32%	340
All	Flu	350	500	70%	150

The dashboard includes two filter dropdowns: 'Account Region' (with options: All, Northern California, Southern California, Los Angeles, San Francisco Bay Area, Central California) and 'Vaccine Type' (with options: All, Flu, COVID19). The main dashboard area displays two rows of metrics, each with a large number, a gauge chart, and a 'View Report' link. The top row shows 160 doses administered (32% of 500 target), and the bottom row shows 350 doses administered (70% of 500 target).

Demo: myCAvax Flu & COVID Orders Dashboard

myCAvax – Known Issues Update

Known Issues

- **Accepting Transfers is not Adding Doses?**
Currently, accepting a transfer is not incrementing your provider inventory with the quantity received. However, the ability to accept or reject transfers is unaffected.

Workaround / Next Steps

- ✓ **Estimated Fix: R56 (4/16/2025)**
 - We are currently manually resolving the data discrepancies on the backend – any mismatch identified should only be temporary.
 - If this is affecting your ability to report on hand inventory during your ordering process, please reach out to the help desk.

Long-Term myCAvax Roadmap

By May 2025

- SGF Enrollment Enhancements
- VFA Enrollment Process updates
- 317 Enrollment Process updates

By June 2025

- Outbreak Enrollment Process updates
- Outbreak becomes its own Program independent of the BAP Program

What's New in myCAvax? – Release 56

New updates for providers launched on Wednesday, **April 16, 2025!**

Release Highlights

Logging an Excursion Event

- ✓ Updated fields will be shown on the 'Step 1 - Select Account and Enter Inventory Information' page.
- ✓ New 'Step 2 - Enter Data Logger' and 'Step 3 - Report Affected Inventory' pages will be added.
- ✓ A new 'Confirmation' page will be displayed after successfully creating an Excursion event.

Program Location Page Update

- ✓ A new 'Excursion Events' section will be added on the 'Storage and Handling' tab of the 'Program Location' page.

Batch Excursion Page Updates

- ✓ Various fields in the 'Details' section will be updated, and a new 'Excursion Information' section will be added.
- ✓ A new 'Excursion Grouping' section will be added in the 'Related' tab.
- ✓ A new 'Excursion Affected Inventories' section will be added on the 'Related' tab.

Excursions Page Update

- ✓ The 'Excursions' page will be updated with new filter options, verbiage descriptions, and updated columns in the search results section.

Batch Excursion Edit in Draft Status

- ✓ Certain pages in the Batch Excursion will be editable when the status is set as 'Draft' and the status reason is 'Pending Inventory Reporting.'

Contacts Update on Recertification

- ✓ Updated fields will be displayed in the 'New Contact' pop-up window while updating Medical Staff and Communication Staff contacts.

R56 Enhancements: Excursions Page Updates

- Providers will see an updated 'Excursions' page with the following changes:
 - New Filter Options
 - Updated Page Descriptions
 - Updated Search Result Section columns

VFC

VFC - Excursions

Step 2 - Enter Data Logger

Enter Data Logger Information

Use this table to document the out-of-range (OOR) temperatures, actions taken, and the total time temperatures went outside of the recommended storage range based on your data logger report. Only enter excursions not previously reported. To report multiple excursion temperature details for a single storage unit, duplicate the row and update the excursion temperature ranges.

Name: SC-43041/Brand: LGtest/Type: Refrigerated Storage Capacity

Excursion Details									
Excursion Start Date	Excursion Start Time	Excursion End Date	Excursion End Time	Total Excursion Time	Minimum Temperature	Maximum Temperature	*F/*C?	Corrective actions taken	
3/28/21	11:30 F	3/29/21	11:30 F	24 hours 0 minutes	10.00	23.00	C	test	

Buttons: Add Blank Row, Duplicate Row

Before clicking 'Submit', verify information. Once you move past this page, you will not be able to make further changes to the times and temperatures listed.

Buttons: Back, Save Draft, Submit

Validation Message: Batch Excursion saved Success

- The following validation message appears at the top of the page upon clicking the Submit button to confirm the Batch Excursion has been saved

R56 Enhancements: New VFC/VFA/317 'Step 3 - Report Affected Inventory' Page

- Providers enrolled in the VFC/VFA/317 programs will have access to the new 'Step 3 - Report Affected Inventory' page

Report Affected Inventory

NOTE: Only report temperature excursions for program vaccines. Please do not report your privately purchased vaccines in myClix.

Please report your affected inventory and manufacturer's stability determination below. Report the total duration that your affected inventory was outside the specified temperature range. Contact the manufacturer to determine vaccine stability. If you have not been able to make contact with your manufacturer, you will need to return to this form once you have the necessary information from the manufacturer.

Provided that you have accurately reported details of your excursion to the vaccine manufacturers, and if the vaccine manufacturers have determined that your vaccines are OK to use, your clinic may resume vaccination services. For doses that may not be used, please remove the vaccine from your vaccine storage and log a returns and waste event.

Name: SC-12391/Brand: Kenmore/Type: Refrigerated Storage Capacity

Total excursion time: 11 hours 4 minutes | Min temp: 60 | Max temp: 70 | °F/°C?

Based on the information provided, it has been determined that the reported incident needs to be reported to the vaccine manufacturers to obtain stability information. - Manufacturer Contact Information.

If you checked that the vaccine is involved in a previous excursion, please ensure you report all temperature excursions that your vaccine was involved in to the vaccine manufacturer so they can provide accurate stability determination.

Affected Inventory				Manufacturer's Stability Determination				
Vaccine Group	Vaccine Brand	Presentation	Involved in previous excursion	Doses administered?	Report case or reference number	New beyond date (optional)	Date incident reported to manufacturer	Manufacturer stability determination
Hep A	VAQTA	SD Syringes	<input checked="" type="checkbox"/>	Yes	56	10/29/21	10/29/21	Doses may be used
HPV	Gardasil9	SD Syringes	<input type="checkbox"/>	Yes		10/29/21	10/29/21	Doses may not be

Add vaccine product:

Add blank row:

Name: SC-0291/Brand: Kenmore/Type: Frozen Storage Capacity

Based on the information provided, no further action is needed at this time and you may resume the vaccination services. Click Submit to document the excursion.

Do Not Use Signage
Please click this link to download a DO NOT USE sign to post on storage unit to quarantine vaccines.

*Incident Summary:

Affected Inventory				Manufacturer's Stability Determination				
Vaccine Group	Vaccine Brand	Presentation	Involved in previous excursion	Doses administered?	Report case or reference number	New beyond date (optional)	Date incident reported to manufacturer	Manufacturer stability determination
Hep A	VAQTA	SD Syringes	<input checked="" type="checkbox"/>	Yes	56	10/29/21	10/29/21	Doses may be used
HPV	Gardasil9	SD Syringes	<input type="checkbox"/>	Yes		10/29/21	10/29/21	Doses may not be

R56 Enhancements: New Excursion Confirmation Page

- After successfully submitting an Excursion report, Providers enrolled in the VFC program will view the new 'VFC – Excursions Confirmation' page with a summary of the provided data.

VFC - Excursions Confirmation

Your excursion report was successfully submitted. Please review your excursion details below. You will be able to revisit this confirmation summary from the excursion landing page by selecting "View Summary".
