

Welcome to the California Department of Public Health Immunization Updates for Providers

Friday, May 3, 2024

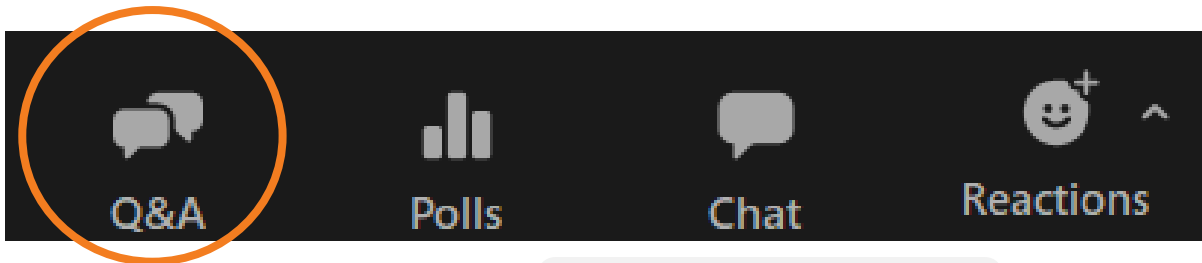

9:00M – 10:30AM

Provider Webinar: Meets Every other Friday

Questions

During today's webinar, please use the Q&A panel to ask your questions so CDPH panelists and subject matter experts can respond directly.

Resource links will be dropped into, "Chat"

Housekeeping

Reminder to Attendees:

Today's session is being recorded. For slides, webinar recordings, and other postings, see the

[CDPH Weekly Immunization Updates for Providers](#)

To be added to the CDPH email messaging listserv for providers, please email your request to billiedawn.greenblatt@cdph.ca.gov

If you have post-webinar-related questions, please email leslie.amani@cdph.ca.gov

Reminder to Panelists:

Please mute yourself when not speaking.

Please monitor the Q&A panel for questions you may be able to answer.

Agenda: Friday, May 3, 2024

No.	Item	Speaker(s)	Time (AM)
1	Welcome and Announcements	Leslie Amani (CDPH)	9:00 – 9:10
2	Vaccine Administration Data	Celeste Romano (CDPH)	9:10 – 9:15
3	Vaccines for Children (VFC)	Claudia Aguiluz (CDPH)	9:15 – 9:20
4	Clinical Update	Louise McNitt, MD (CDPH)	9:20 – 9:30
5	Storage and Handling: Moderna COVID-19 Vaccine	Kelley Leung, RN (CDPH)	9:30 – 9:35
6	Vaccine Management	Josh Pocus (My Turn) and Claudia Aguiluz (myCAvax)	9:35 – 9:45
7	Resources and Q&A	Leslie Amani (CDPH)	9:45 – 10:30

Thank you for attending today's webinar!

Announcements

Leslie Amani, CDPH

May is Hepatitis Awareness Month

The month of May is designated as Hepatitis Awareness Month in the United States, and May 19th is Hepatitis Testing Day. During May, CDC and our public health partners work to shed light on the impact of these hidden epidemics by raising awareness of viral hepatitis while encouraging testing and vaccination.

[CDC Hepatitis Awareness Month](#)

Healthy Places Index (HPI) Toolkit Webinar Series

You're invited to our Building Impact HPI training series – a dynamic learning journey designed for all audiences, whether you're a program specialist or a research scientist. Each session, scheduled from January to June, promises a hands-on experience with engaging activities, open discussions, and dedicated Q&A sessions.

When: Thursday, May 9, 2024

Time: 1PM – 2PM, PST

[HPI Toolkit Registration Link](#)

Topic #5: Your Data and HPI:

Navigate the ins and outs of HPI data management in this session, including uploading your data to the HPI map and downloading HPI data through our API. Learn best practices to get the most out of using your data with HPI.

2024 California Immunization Coalition Summit

Audience: Physicians, pharmacists, nurses, administrators, educators, immunization stakeholders, coalition members, advocates and other providers from the public and private sector who are involved in working on current immunization issues, strategies and activities.

Location: Sacramento, CA

The **2024 California Immunization Coalition Summit** will provide clinical updates and the latest information on issues related to vaccine administration and communication. Participating in this statewide event will provide access to the latest information on immunization issues and communication strategies and will help connect you with public health colleagues and private sector representatives that can assist your work in educating and supporting your community. The Summit is a terrific opportunity to renew our collective vision to make access to vaccinations and disease prevention a reality for all Californians.

Public Health

Welcome to the Public Health Department

The Butte County Department of Public Health (BCPHD) runs over 50 programs serving: children, mothers, families, adults, small businesses, animals, and the environment. Promoting healthy behaviors and resources, preventing illness and protecting the health of residents and visitors in Butte County is our daily commitment.

As a nationally accredited health department, we are involved in a variety of community-based activities that engage residents in the planning, evaluation and implementation of health improvements in their communities. Our website is designed to be your local resource for health information. Throughout this site, you can learn more about the many excellent programs and services that are offered through the department.

EZIZ Email Updates

Are you signed up to receive CDPH Immunization Branch EZIZ Email updates for providers?

To be added, please email billiedawn.Greenblatt@cdph.ca.gov

The screenshot shows the top portion of an email. At the top left is the CDPH logo, followed by the text "EZIZ Update". To the right, in a smaller font, is "Immunization Branch". Below this is a blue bar with the date "May 2, 2024". The main content area has a heading "Latest Updates and Resources" followed by a horizontal line. Below the line is the text "In this message:" followed by a numbered list of four items: 1. Hepatitis Awareness & Asian American and Pacific Islander Heritage Month, 2. May - July Holiday Cadence Calendars for BAP and SGF, 3. CDPH Immunization Updates for Providers Webinar Reminder, and 4. VFC Transition to myCAvax. Another horizontal line follows. Below it is a bold heading: "May is Hepatitis Awareness and Asian American and Pacific Islander Heritage (AAPI) month!". At the bottom is a paragraph: "Did you know? About 9 in 10 adults with chronic hepatitis B in California are Asian and Pacific Islanders, especially those born in China, Korea, Vietnam, and the Pacific Islands."

COVID-19 Vaccine Administration Data

Celeste Romano, CDPH

COVID-19 Vaccine Administration Summary

as of April 29, 2024

96,017,394

Total Doses Administered:

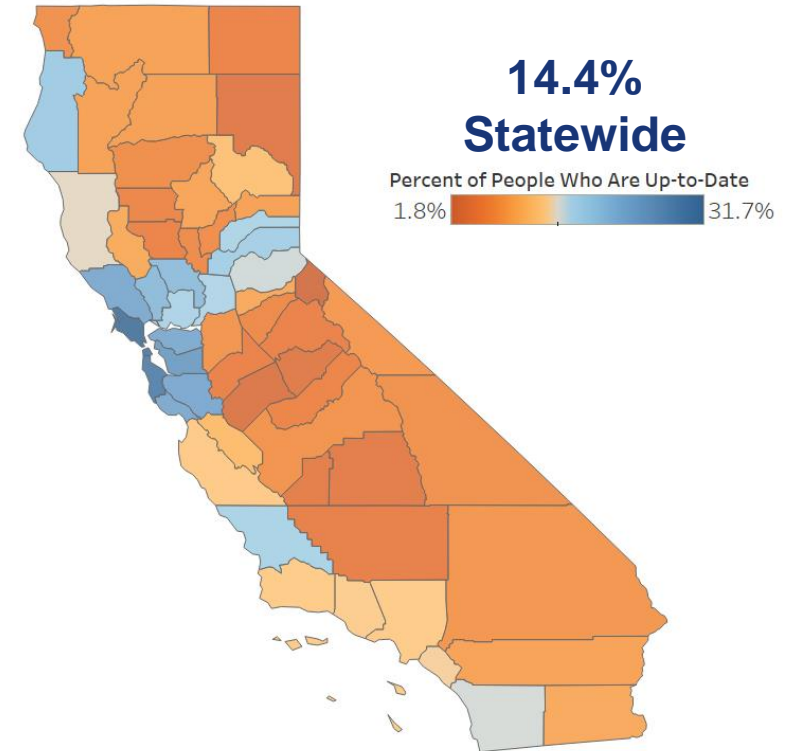

Daily Doses Administered: **Statewide**

5,759,145

Total Up-to-Date* Recipients:

Percent of Population Who Are Up-to-Date

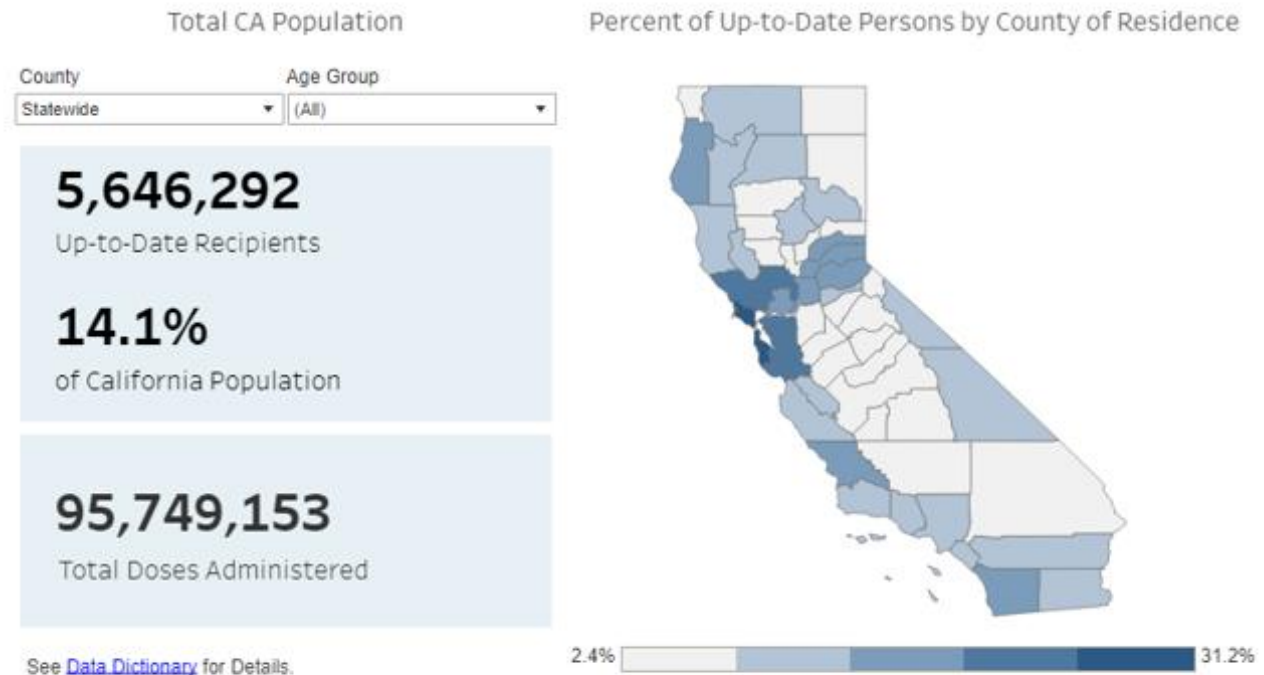

*Has received at least one dose of the Updated 2023-2024 vaccine

Statewide COVID-19 Vaccination Data

- Up-to-Date status includes recipients who have received at least one dose of the updated COVID-19 vaccine
- Additional doses CDC recommends for certain groups are not required to be considered Up-to-Date

This chart shows persons with up-to-date COVID-19 vaccination status in California, by county of residence. These data are updated monthly. **Up-to-date status is defined as having received at least 1 dose of an updated COVID-19 vaccine.** CDC recommends that certain groups (children aged 6 months-4 years, people who are moderately or severely immunocompromised, and people aged 65 years and older) receive additional doses.. For additional information, see the data dictionaries in the [California Open Data Portal](#).

Trends in COVID-19 Vaccine Administration

as of April 29, 2024

Most Recent Eligibility Groups

- Additional Updated 2023-2024 dose for 65+ age group

Older Adults Now Able to Receive Additional Dose of Updated COVID-19 Vaccine

[Print](#)

Media Statement

For Immediate Release: Wednesday, February 28, 2024

Contact: [Media Relations](#)
(404) 639-3286

Today, CDC Director Mandy Cohen endorsed the CDC Advisory Committee on Immunization Practices' (ACIP) recommendation for adults ages 65 years and older to receive an additional updated 2023-2024 COVID-19 vaccine

Doses Administered by Age Group, Past 4 Weeks

Trends in 65+ Additional COVID-19 Dose Administration

as of April 29, 2024

Additional Updated 2023-2024 Dose Uptake among 65+

- Peak in administration the first week of April
- Recent decline in additional doses

Additional Updated 2023-2024 Doses Administered Among 65+ since Recommendation (02/28/24)

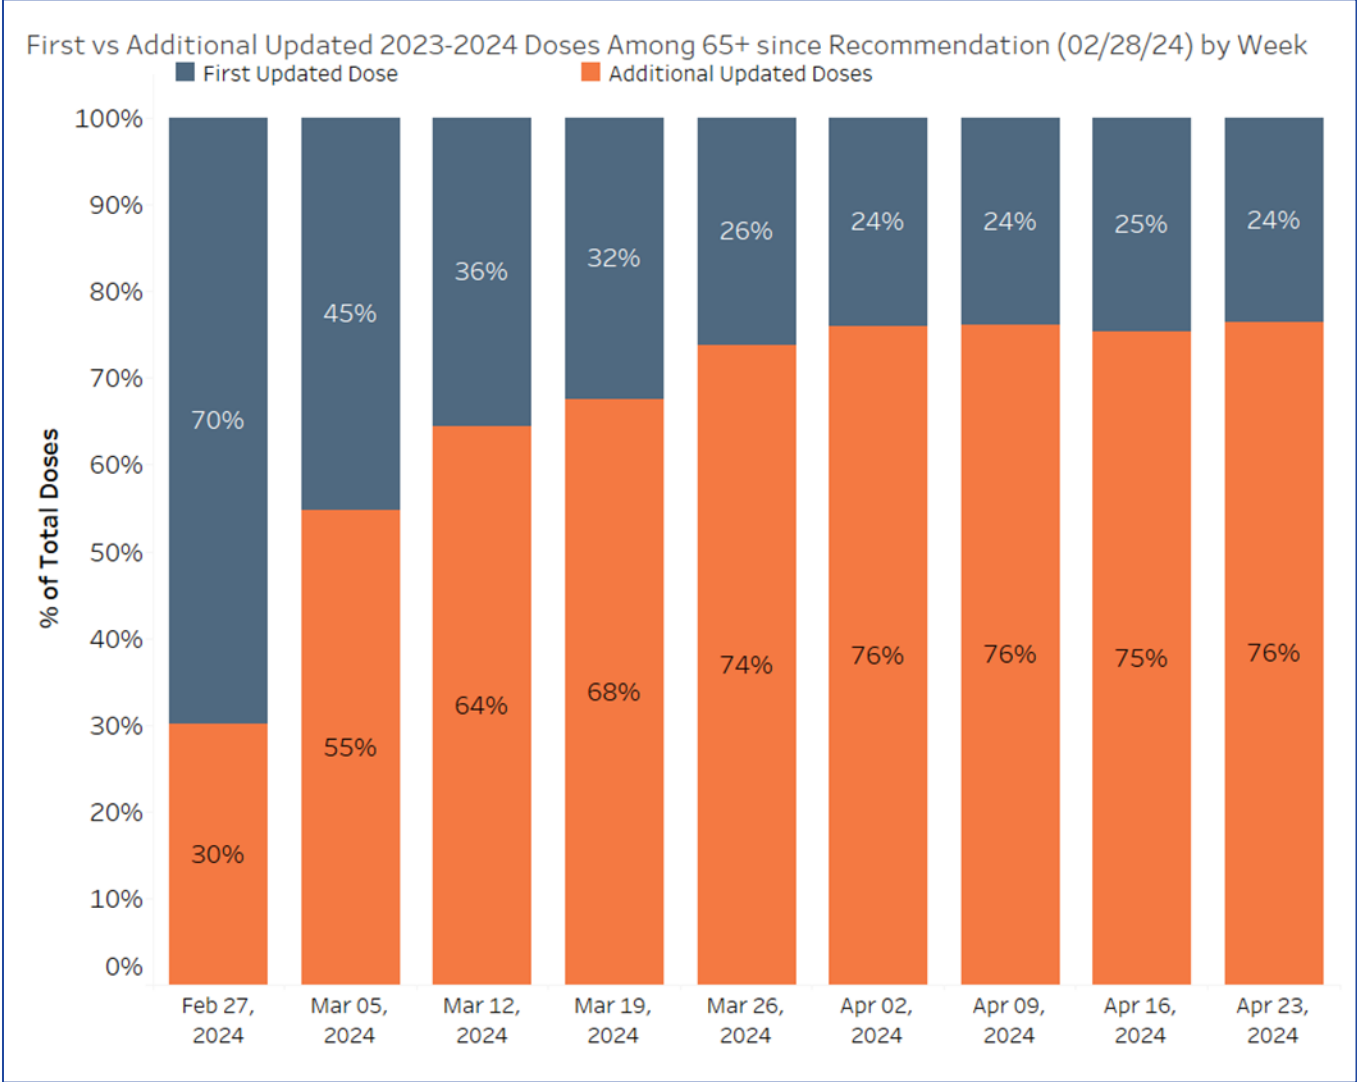

Trends in 65+ Additional COVID-19 Dose Administration

as of April 29, 2024

Additional Updated 2023-2024 Dose Uptake among 65+

- In the past 5 weeks, 75% of 65+ vaccine recipients received an additional dose

COVID-19 Vaccine Data Summary

as of April 29, 2024

Key Metrics

96.0 million doses administered	+57 thousand doses administered
14.4% Statewide who are Up-to-Date	5.8 million Up-to-Date recipients
35.6% 65+ population Up-to-Date*	2.3 million 65+ Up-to-date recipients

System Notes

- Up-to-Date status defined as at least one dose of the updated COVID-19 vaccine
- Public dashboard updated monthly
- Email cdphvaccinatedatateam@cdph.ca.gov for questions and comments

*Rates based on all recipients with age 65+ and DOF population estimates

Vaccines for Children

Claudia Aguiluz, CDPH

VFC COVID-19 Vaccine Supply

- COVID-19 vaccine for all age groups will continue to be available for provider orders until the end of the 2023-2024 season.
- However, as manufacturers prepare for the 2024-2025 season VFC Program product availability is expected as follows:
 - **Novavax:** Latest 2023-2024 expiry is 5/31/2024. This product is no longer available for ordering.
 - **Pfizer:**
 - Pfizer 6m-4y vaccine (NDC 59267-4315-02) is no longer available for ordering.
 - Pfizer 5-11y - latest 2023-2024 expiry is 8/31/2024. Pfizer estimates supply will run out as soon as end of contract (June 6).
 - Pfizer 12yo+ (refrigerated/never frozen) - latest 2023-2024 expiry is 8/31/2024. Pfizer estimates supply will run out as soon as late May/early June.
 - **Moderna:** Latest 2023-2024 expiry for 6m-11yo and 12yo+ vaccines is late September or better. **Moderna indicates supply sufficient to meet demand between now and when 2024-2025 vaccine is available.**

Clinical Update

Louise McNitt, MD, CDPH

COVID-19: California Pediatric Cases and Hospitalizations Averted by Vaccination

Recent study found that **California's pediatric COVID-19 immunization program averted 376,085 reported cases and 273 hospitalizations among children aged 6 months to 15 years** over approximately 4 to 7 months following vaccination availability.

Table. Statewide Estimates of Averted COVID-19 Cases and Hospitalizations in California Due to Vaccination Among Children Aged 6 Months to 15 Years^a

Age group (vaccine eligibility date)	Postvaccine period (length, d)	Children vaccinated, No. (%)	Observed, No.		Expected, No. (95% PI)		Averted, No. (95% PI)		% Averted (95% PI)	
			Cases	Hospitalizations	Cases	Hospitalizations	Cases	Hospitalizations	Cases	Hospitalizations
12-15 y (May 10, 2021)	June 10, 2021, to October 29, 2021 (144)	1 712 868 (53.5)	248 296	688	394 506 (392 545 to 396 467)	747 (623 to 932)	146 210 (136 056 to 158 948)	59 (-65 to 244)	37.1 (34.5 to 40.3)	7.9 (-8.7 to 32.7)
5-11 y (October 29, 2021)	November 19, 2021, to June 17, 2022 (199)	1 219 432 (34.8)	739 830	729	969 964 (940 000 to 1 000 497)	775 (650 to 950)	230 134 (200 170 to 265 149)	46 (-79 to 221)	23.7 (20.6 to 27.3)	5.8 (-10.2 to 28.6)
6-59 mo (June 17, 2022)	July 17, 2022, to February 27, 2023 (225)	177 087 (7.9)	67 287	520	67 027 (66 321 to 67 733)	688 (561 to 844)	-259 (-1938 to 1019)	168 (42 to 324)	-0.4 (-2.9 to 1.5)	24.4 (6.1 to 47.1)

Abbreviation: PI, prediction interval.

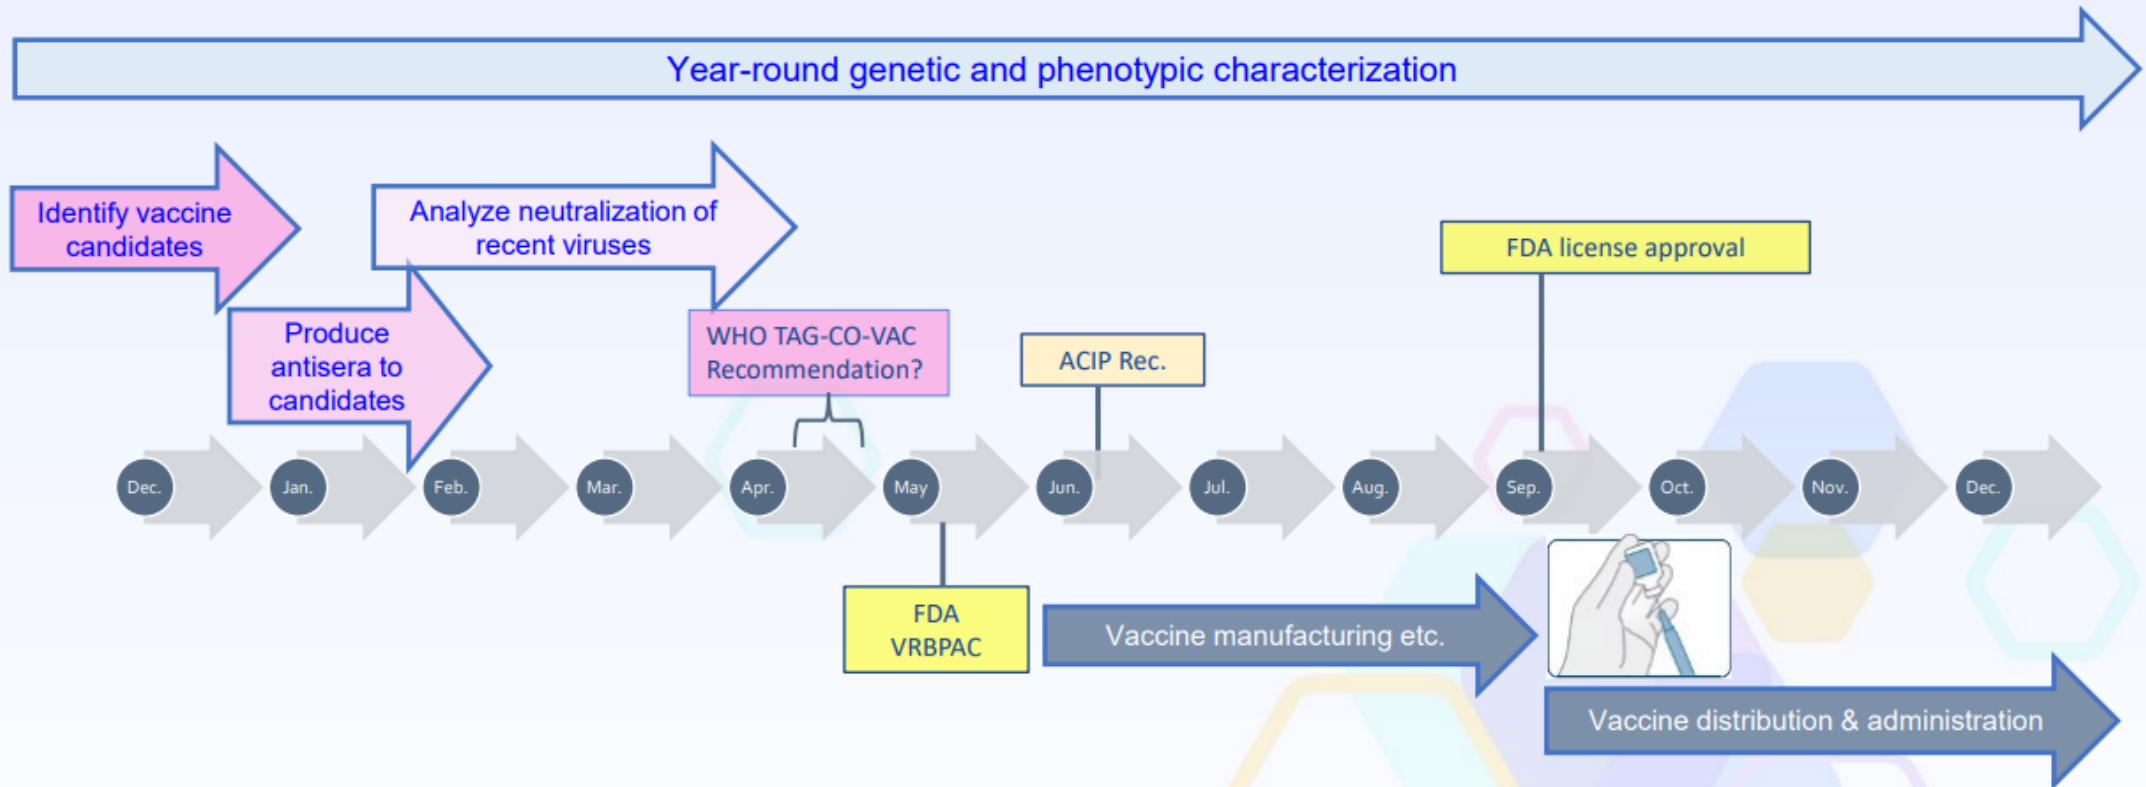

^a The expected number of cases and hospitalizations for each age group is calculated according to the counterfactual predictions.

COVID-19: FDA VRBPAC Meeting

Discuss and Recommend Strain(s) for 2024 – 2025 Vaccine

- **When: Thursday, May 16, 2024:** The FDA Vaccines and Related Biologic Products Advisory Committee (VRBPAC) will meet to discuss and make recommendations on the selection of strain(s) to be included in the 2024 – 2025 Formula for COVID-19 vaccines.
- June 2024: ACIP anticipated to review and vote on recommendations for 2024 – 2025 season
- Late Summer – Fall: 2024-25 vaccine anticipated to be available for use

Revised Time Frame for 2024-2025 COVID-19 Vaccine Availability

Proposed changes: WHO-TAG-CO-VAC mid-late April (exact date to be determined), FDA VRBPAC in May, ACIP in June

Slide for discussion purposes. Information is approximated and exact timelines for manufacturing are inferred.

WHO: World Health Organization | TAG-CO-VAC: Technical Advisory Group on Covid-19 Vaccine Composition | FDA: Food and Drug Administration | VRBPAC: Vaccines and Related Biologic Products Advisory Committee | ACIP: Advisory Committee on Immunization Practices

[Vaccines and Related Biological Products Advisory Committee May 16, 2024 Meeting Announcement - 05/16/2024 | FDA](#)

Continue Vaccinating Against COVID-19 Year-round

Respiratory Disease Immunization Recommendations for Children

	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	April	May	Jun
COVID-19 (6 months+)	Strongly recommend updated vaccine for everyone. Children ages 6 months – 4 years should complete a multi-dose initial series, with at least one dose of the updated vaccine.											
Flu (6 months+)	Vaccinate children:			Optimal vaccination:		Continue vaccinating as long as flu is circulating, and unexpired vaccine is available.						
	<ul style="list-style-type: none"> 6 months – 8 years who need 2 doses*, or Who may not return in the fall 			September and October								
RSV (Nirsevimab) (0 –19 months)**				Optimal administration: October 1 – March 31								

Recommended immunization timing
 IZ timing for certain situations

*Children ages 6 months - 8 years with a history of 0 -1 flu vaccines, need 2 doses. The first flu vaccine dose should be given as soon as vaccine is available to allow the second dose to be given > 4 weeks later and ideally by the end of October.

**Providers may adjust timing based on guidance from local public health or regional medical centers.

Interchangeability of COVID-19 Vaccines for Infants/Toddlers

- Children 6 months-4 years should receive all vaccine doses in their initial series from the same manufacturer.
- If the same vaccine is not available at the vaccination site at the time of the clinic visit, they may receive an age-appropriate COVID-19 vaccine from a different manufacturer. A Vaccine Adverse Event Reporting System (VAERS) report is not indicated in these circumstances.
- Children 6 months-4 years who receive 1 Pfizer-BioNTech and 1 Moderna vaccine dose, should follow a 3-dose schedule, for example:
 - Dose 1: Pfizer
 - Dose 2: if Pfizer isn't available, Moderna, 4-8 weeks after dose 1
 - Dose 3: Pfizer or Moderna, at least 8 weeks after dose 2

COVID-19 Vaccine Timing 2023-24 –Routine Schedule

Age*	Vaccine	If unvaccinated:	If had any prior doses, give 2023-24 doses:
6 months–4 years†	Pfizer–Infant/Toddler	1st Dose → 3-8 weeks** → 2nd Dose → ≥8 weeks → 3rd Dose	If 1 prior dose, then: 3-8 weeks 1, ≥8 weeks 2 If ≥2 prior doses, then: ≥8 weeks 1
	Moderna–Pediatric*	1st Dose → 4-8 weeks** → 2nd Dose	If 1 prior dose, then: 4-8 weeks 1 If ≥2 prior doses then: ≥8 weeks 1
5–11 years	Moderna–Pediatric*	1 Dose	If 1 or more prior doses (of any of the brands), then*: ≥2 months 2023-24 Formulation: Moderna/Pfizer
	Pfizer–Pediatric	1 Dose	
12+ years	Pfizer–Adol/Adult (Comirnaty)	1 Dose	If 1 or more prior doses (of any of the brands), then*: Ages 12-64: ≥2 months 2023-24 Formulation: Moderna/Pfizer/Novavax Ages 65+: ≥2 months 1, ≥4 months 2
	Moderna–Adol/Adult (Spikevax)	1 Dose	
	Novavax	1st Dose → 3-8 weeks** → 2nd Dose	

* See [CDC recommendations](#) for children transitioning from a younger to older age group
 † Children 6 months – 4 years should receive the same brand of the updated vaccine as the prior doses they received.
 ** An 8-week interval may be preferable for some people, especially for males 12-39 years.
 ‡ All Moderna doses 6 months – 11 years are 0.25 mL (25 mcg).
 ^ Janssen (J & J) vaccine has been deauthorized. Follow schedule for 12+ years for any prior doses.

[IMM-1396 COVID-19 Vaccine Timing Chart \(eziz.org\)](https://www.eziz.org/imm-1396-covid-19-vaccine-timing-chart)

JYNNEOS Commercialization

- JYNNEOS vaccine became available for purchase from [Bavarian Nordic](#) on April 1, 2024
- LHDs and Providers were asked to order vaccine needed for LGBTQ+ PRIDE season (April – August) by April 25, 2024
- Some orders were adjusted based on recent shipping data and vaccine usage during PRIDE season last year
 - Providers with order adjustments were sent an email message from myCAvax

New Process for JYNNEOS Orders from SNS*

- Non-LHD providers will no longer be able to order JYNNEOS in myCAVax
 - Providers will be advised to contact their LHD if they are unable to access the commercial JYNNEOS product and need doses from SNS
- Providers will need to justify their need for doses from SNS rather than purchasing through commercial market, e.g.:
 - Need vaccine for events where uninsured patients will be vaccinated
 - Provider unable to access commercial product
- Reminder: all JYNNEOS vaccine that CDPH currently has in inventory has expiration date of Oct 31, 2024
 - Expiration date of any future vaccine ordered from SNS is also likely to be short-dated ([SNS Products: Vaccines and Treatment Available for Use in the Mpox Response \(hhs.gov\)](#))

Order Commercial JYNNEOS

- LHDs and Providers are encouraged to start purchasing the commercial JYNNEOS product for their insured patients
- A list of JYNNEOS wholesalers and distributors can be found on the Bavarian Nordic website at [Contact Us | USA | Bavarian Nordic \(bnvaccines.com\)](https://www.bnvaccines.com)

- Single dose vials for all age groups
 - Vial for 6m-11yo is overfilled, do not withdraw entire contents of vial when preparing dose
 - Dose for 6m-11yo: 0.25mL
- Ships frozen between -50°C and -15°C (-58°F and 5°F)
- Once received, can be stored:
 - Regular freezer: -50°C and -15°C (-58°F and 5°F) until expiration date
 - Refrigerator: $2-8^{\circ}\text{C}$ ($36-46^{\circ}\text{F}$) Up to 30 days (not to exceed expiration date)

Vaccine Management

Josh Pocus, My Turn, and Claudia Aguiluz, myCAvax

New updates for Patients launched on **Wednesday, April 24, 2024!**

Release Highlights

Patients will be able to view:

- ✓ The 'Pediatric (18 and younger)' tag instead of the 'Pediatric patients only (under 18)' tag on the 'Select a location' page.
- ✓ The new 'Flu - nasal spray' tag for those between 2 years and 49 years old, and the 'Flu - high dose (65+)' tag for patients aged 65 and above on the 'Select a location' page.
- ✓ An updated description provided for the question 'Is the patient interested in getting the nasal spray?' on the 'Screening' page.
- ✓ The CDC screening questions arranged alphabetically on the 'Final steps' page.

Patients will no longer be able to view:

- ✓ The nasal spray eligibility questions or errors upon responding 'Yes' to the 'Is the patient interested in getting the nasal spray?' question on the 'Screening' page while scheduling flu appointments.
- ✓ The 'Would the patient also like to receive the flu vaccine?' question on the 'Final steps' page while scheduling flu appointments.

New updates for Clinic Managers launched on Wednesday, April 24, 2024!

Release Highlights

Clinic Managers will be able to view:

- ✓ The new tooltip added to the 'Are you the clinic manager or someone else?' question on the 'Contact Creation' page while on the authenticated digital enrollment flow.
- ✓ The new help text added to the 'Date Administered' field while bulk uploading the records via 'CSV Upload' on the 'CAIR Quick Entry' page.
- ✓ An error message if the entered Clinic Name contains commas while bulk uploading the records via 'CSV Upload' on the 'CAIR Quick Entry' page.
- ✓ The 'Enable geofencing' and 'Vendor clinic' checkboxes regardless of whether the 'Show Clinic on My Turn' toggle is selected on the Clinic Creation flow.
- ✓ The 'School vaccination clinic' checkbox if they select super clinic as the 'Clinic Type' while on the Clinic Creation flow.
- ✓ The 'Phone Number' field under the 'Address' field on the 'Clone Clinic and Availability' pop-up window.
- ✓ The tags selected for the clinic during the Clinic Creation flow that appear on the 'Tag' subtab after the 'Clone Clinic Creation' process.
- ✓ Error messages on the 'Phone,' 'Extension Number,' and 'Mobile' fields on the 'Contact' subtab if the entered value is not within the specified limit or does not meet the format requirements.

- ✓ An error message on the 'New Location Tag' pop-up window when they try to add the 'School vaccination clinic' tag to a traditional clinic.
- ✓ The vaccine supply synchronizes with the clinic's 'Vaccine Type' field. If the added vaccine supply already exists in the clinic's 'Vaccine Type' field, the value remains unchanged; otherwise, the vaccine supply is added to the 'Vaccine Type' field.
- ✓ The updated footer on the 'My Turn Clinic' portal with new contact details and resource links.
- ✓ The new 'More' section added under the 'Reports' section on the 'Dashboard and Reports' page.
- ✓ The updated 'Completed appts by vaccine type' tile title on the 'Dashboard and Reports' page for super clinics.

Clinic Managers will no longer be able to view:

- ✓ The 'Address Information' section on the 'Contact Details' page on the 'Contacts' subtab.
- ✓ The 'Status' field on the 'Clone Clinic and Availability' pop-up window.

New My Turn Users will no longer be able to view:

- ✓ The 'County field' on the 'Provider Organization Information' page while on the unauthenticated digital enrollment flow.

New updates for Clinic Managers and Vaccine Administrators launched on **Wednesday, April 24, 2024!**

Release Highlights

Clinic Managers and Vaccine Administrators will be able to view:

- ✓ Successfully schedule COVID-19 or Mpox appointments on the 'Add New Appointment' pop-up window and confirm them without any error.
- ✓ An updated header that shows only the vaccine type and not the vaccine brand while going through an appointment in the traditional VA and IIS flows.
- ✓ The 'Rebook Appointment' option in the dropdown arrow for parent appointments that are in the 'Cancelled' status on the 'Appointments' page.
- ✓ View a warning banner indicating they can no longer modify the 'Scheduled Vaccination' section after submitting a super clinic appointment.
- ✓ A note added to the 'Scheduled vaccinations' pop-up window on the VA flow indicating that the set of screening questions will change, and the vaccination status of an appointment will be reset to Pending Vaccination when they modify the patient's scheduled vaccinations.
- ✓ An error message on the 'Cancel Appointment' pop-up window when they try to cancel an appointment without selecting a reason for cancellation.
- ✓ An error message on the 'Add New Appointment' pop-up window when the specific vaccine supply is not available in the clinic based on the age entered.
- ✓ The 'Previous Doses' section on the VA and IIS flows displaying all the previous doses received by the patient.

- ✓ View the new 'Vaccination Scheduled' field below the 'Schedule' field on the 'Cancel Appointment' pop-up window that displays the child appointments that will be canceled along with the parent appointment.
- ✓ An error message when they enter any numbers or special characters in the 'Relationship to Policy Holder' field on the 'Edit Health Insurance' pop-up window.
- ✓ The 'Standard minor consent form' below the 'Additional or alternative minor consent form provided to patient' checkbox on the 'Edit Parent/Guardian Information' pop-up window on the VA and IIS flows.
- ✓ The Nasal spray products on the 'Product' field based on the responses to the nasal spray question in the VA flow and the clinic inventory.
- ✓ A banner on the VA flow indicating missing information in the 'Screening Question' section.
- ✓ The 'Back' button instead of the 'Cancel' button on the 'Bulk Update Confirmation' pop-up window.
- ✓ The updated subtext on the 'Presentation' field on the 'CSV Template' while bulk uploading appointments via the CSV Bulk Upload flow.
- ✓ The 'Primary Birth' column renamed to 'Primary Holder Birth' on the 'CSV Template' while bulk uploading appointments via the CSV Bulk Upload flow.
- ✓ The errors beneath the 'Missing Required Fields' and 'Invalid User Input' columns when they open the CSV Error File after uploading the 'CSV Bulk Upload Template.'

Clinic Managers and Vaccine Administrators will no longer be able to view:

- ✓ The 'Has the patient been exposed to Mpox?' screening question while scheduling Mpox appointments on the Mpox flow.

My Turn Clinic Setup for a School-Located Vaccine Event

Clinic Setup

STEP 1

Clinic information

Set clinic visibility

Choose whether you want your clinic to appear on My Turn for public appointment scheduling. If you select 'no', your clinic will only support walk-in patients until this setting is changed.

Show Clinic on My Turn No

3. After you have added vaccine inventory and availability, go to the 'Clinic Links' tab. Click the 'Generate New Link' button to generate a clinic-specific link for your school event.
4. **NOTE:** The 'Activate Location' switch functions the same as the 'Show Clinic on My Turn' switch from Step 1. If you do not want your clinic to be shown on the My Turn Public Portal, do not toggle the 'Activate Location' switch.

1. Step 1 of Clinic Setup is to enter information about your clinic for the school vaccine event. **NOTE:** If you do not want your clinic to be available for public scheduling on My Turn, do not toggle the 'Show Clinic on My Turn' switch.
2. Continue down the page, entering information about your clinic. Then, in the Clinic Tags section, select the 'School vaccination clinic' tag.

Clinic Tags

*Select at least one option below.

Sunsetting CAIR Mass Vax

CAIR Mass Vax will be retired by the **end of June 2024**. It has been replaced by CAIR Quick Entry (CQE) in My Turn.

Providers enrolled in My Turn will automatically gain access to CAIR Quick Entry, which offers familiar functionalities from Mass Vax along with enhancements and support additional vaccines.

CAIR Quick Entry offers:

- Simplified uploading of records in bulk or batches to CAIR.
- Ability to edit records after submission.
- Prefilled rows for quick entry of information
- Support for all Mass Vax vaccines, plus additional vaccine options.

If you have questions about enrolling in CAIR Quick Entry, email mycavax.hd@cdph.ca.gov or call (833) 502-1245, Monday – Friday, 8:00 AM – 5:00 PM PT.

My Turn – Known Issues and Workarounds

Known Issues

Clinic Appointment Reports Including 'Generic' Vaccines

- ✓ Super Clinic appointment reports are including records with a vaccine type of 'Generic'.

Blank Accounts Dropdown on IIS Status Page

- ✓ Refreshing the IIS Status page may cause an issue where the Accounts dropdown select is blank.

Greyed Out Pre-Screening Questions if Accessing Certain Appointments Through 'Additional Appointments'

- ✓ If navigating to an appointment that only has one product (traditional or super clinic appointment with one product) via the 'Additional appointments' pop up, the pre-screening questions are greyed out.

Ordering Provider Required in CAIR for Vaccine Record Submissions

- ✓ CAIR now requires the Ordering Provider to be specified for vaccine record submissions – not having one will result in a warning response from CAIR2. The Ordering Provider data is not currently captured in My Turn.

Workaround / Next Steps

- ✓ Estimated Fix: **6/26/2024**
- ✓ Workaround: If exporting reports, use Excel to filter out these records.

- ✓ Estimated Fix: **6/26/2024**
- ✓ Workaround: If this occurs, please log out and log back in.

- ✓ Estimated Fix: **TBD**
- ✓ Workaround: Access the appointment through the 'Appointments' tab.

- ✓ Estimated Fix: **TBD**

Vaccines for Children (VFC) Coming Soon to myCAvax!

COMING SOON

VFC vaccine ordering, and other related VFC activities will go live in myCAvax on **Monday, June 10, 2024.**

Once live, VFC providers will be able to easily:

- Report shipping incidents electronically
- Access practice dashboards
- View support resources in the Knowledge Center
- Read important broadcast messages from CDPH upon logging in to myCAvax
- Centralize many state-funded vaccine programs in one platform

VFC Upcoming Provider Actions

By Friday, May 24, 2024

Vaccine Orders:

- Last day to submit new VFC orders in MyVFCvaccines is **Friday, May 24**.
 - **NOTE:** If your routine order is due during or shortly after our blackout period, consider submitting a new order by **Friday, May 24** to avoid any delays in your vaccine supply.
- Submit transfers, waste, returns, and shipping / handling incidents into MyVFCvaccines alongside orders.

Account Management:

- If needed, update Primary and Backup Vaccine Coordinator information in MyVFCvaccines.
- Update expired data loggers.
- Ensure certificate of calibration is valid.

Training:

- Provider training is set to start **late May**. Keep an eye out for training invites.

Monday, May 27, 2024 – Friday, May 31, 2024

Vaccine Orders:

- VFC program will review and approve orders submitted.
- If order corrections are needed, VFC providers must promptly submit corrections as requested by VFC program during this period.
- After **Friday, May 31**, any unapproved MyVFCvaccines orders must be resubmitted by VFC providers in myCAvax after go-live.

Training:

- Please plan to attend provider trainings – registration links will be shared with you soon!

By Friday, June 10, 2024

Go Live:

- VFC program go-live in myCAvax – log in!
- VFC providers will be able to submit orders, returns, transfers, etc.
- Contact the Provider Call Center for support via phone or email when needed.

Account Management:

- Expired certificate of calibration will prevent VFC providers from ordering vaccine product.

Training:

- Provider training will continue after go-live – registration links will be shared with you soon!

Preparing to Access the VFC Program in myCAvax

Primary and backup vaccine coordinators will be granted access to myCAvax based on the information provided in MyVFCvaccines. Be sure your vaccine coordinator information is up to date in MyVFCvaccines by **Friday, May 24, 2024**. Unlike MyVFCvaccines, in myCAvax, each user will need to log in with their own unique credentials.

For existing myCAvax users:

The VFC program will be added to your account on **Monday, June 10, 2024**.

Update your contact information (e.g. email address, etc.) in MyVFCvaccines to match myCAvax, if needed, so that access to VFC can be added to your existing login credentials.

For brand new myCAvax users:

Your primary and backup vaccine coordinator will receive a myCAvax welcome email on **Monday, June 10, 2024**, which will ask them to finish setting up their myCAvax account.

Be sure the information for your vaccine coordinators is correct in MyVFCvaccines as that's how their unique login credentials will be created.

VFC Go-Live in myCAvax: Day One

On **Monday, June 10, 2024**, VFC providers will log in to myCAvax and be able to:

- View and place orders
- View and place transfers*
- View and report waste or returns
- Report shipping incidents
- Report excursions*

***NOTE:** Reporting transfers and excursions in myCAvax are dependent on having up-to-date vaccine storage and temperature monitoring equipment logged in myCAvax.

NOTE: Expired Digital Data Loggers (DDLs) and vaccine storage unit information may have to be validated or confirmed to place an order.

As we transition the VFC program from MyVFCvaccines to myCAvax, the below policies / procedures will stay the same:

- Information required to place orders will not change – doses administered and on hand inventory will still need to be reported
- Timeframes for order submission and order processing will not change
- Providers will still receive email confirmations once orders are approved and are being filled by McKesson or directly (Merck / Pfizer)
- Providers will still be able to receive shipping labels for returning doses

VFC Providers Using myCAvax Today: Update Storage Units

Edit SC-36755

Storage Unit Name: SC-36755

Storage Type: Refrigerated Storage Capacity

Refrigerated Storage Capacity: 30

Storage Unit Brand: Frigidaire

Storage Unit Model: x9000

Thermometer Type (Select one): Digital data logger

Thermometer Model: AccuTherm

Thermometer Serial Number: 95587829382

Calibration Expiration Date: 3/31/2024

Account: BVHC - 889 Abrego St - HS

Location Application: Household

*** Vaccines Stored**

Available	Chosen
SGF	VFA
317	VFC
Outbreak	
BAP	

Historical Information

Storage Unit Brand/Model: Frigidaire

Thermometer Model and Serial Number: AccuTherm 996449234167

System Information

Cancel Save & New Save

We ask that all VFC providers who already use myCAvax to manage other programs **update storage units as soon as possible in myCAvax** so that you can submit orders and transfers in the new system.

- Make a new storage unit and indicate that VFC vaccine are stored in it.
- Add the program to the storage unit accordingly (if your VFC vaccine is stored in a storage unit already tracked in myCAvax).

VFC Training Sessions for Providers

The VFC program will be live in myCAvax on **Monday, June 10, 2024**.
CDPH will begin system training for VFC providers in **late May 2024**.

VFC providers who are brand new to myCAvax should attend the '*Brand New Provider Training: Getting Started with myCAvax*' training.

All VFC providers should attend the below trainings:

- *VFC 101: Requesting VFC Vaccine in myCAvax*
- *VFC 102: Managing VFC Vaccine Inventory in myCAvax*

Multiple sessions will be offered for each training. Dates, times, and registration links will be shared in the coming weeks. Stay tuned!

Vaccines for Adults (VFA) Recertification Completion

Almost there! **80%** of VFA-eligible providers completed recertification so far.

As of **Thursday, May 2, 2024**, **431** out of **540** total providers eligible for VFA have completed recertification.

 **109 VFA-eligible providers still need to complete recertification.**

Recertification completion is required to submit a VFA vaccine order. Providers will need to complete recertification if they want to place a VFA vaccine order before the next ordering window – **the April VFA ordering window is now closed.**

Quarter 2 VFA Ordering Period (April 15 – 30, 2024)

(1 of 2)

California VFA Vaccination Program Ordering & Distribution Cadence Calendar (Providers)

**Cadence below applies to approved VFA orders only. Time period for order review and approval may vary.*

Monday	Tuesday	Wednesday	Thursday	Friday
April 15	16	17	18	19
Provider VFA Ordering Open in myCAvax (Order Submission April 15 – April 30)				
CDPH Transmits to CDC by EOD	McKesson Receives Orders			
	CDPH Transmits to CDC by EOD	McKesson Receives Orders		
		CDPH Transmits to CDC by EOD	McKesson Receives Orders	
			CDPH Transmits to CDC by EOD	McKesson Receives Orders
				CDPH Transmits to CDC by EOD
22	23	24	25	26
Provider VFA Ordering Open in myCAvax (Order Submission April 15 – April 30)				
Monday Orders Shipped by*	Estimated Delivery (Tuesday/Wednesday)			
Tuesday Orders Shipped by*	Estimated Delivery (Tuesday/Wednesday)			
	Wednesday Orders Shipped by*	Estimated Delivery (Wednesday/Thursday)		
		Thursday Orders Shipped by*	Estimated Delivery (Thursday/Friday)	
McKesson receives Orders			Friday Orders Shipped by*	Estimated Delivery (Friday/Tuesday)
29	30	May 01	02	03
Provider VFA Ordering Open in myCAvax (Order Submission April 15 – April 30)				
	Estimated Delivery (Tuesday)			

NOTE: Order transmission and receipt of orders is highlighted the first 2 weeks for illustration purposes only. Similar timelines are applicable to LHDs 317 Vaccine Orders submitted on a monthly frequency.

Quarter 2 VFA Ordering Period (April 15 – 30, 2024)

(2 of 2)

California VFA Vaccination Program Ordering & Distribution Cadence Calendar (Providers/LHDs)

**Cadence below applies to approved VFA orders only. Time period for order review and approval may vary.*

CDPH Order Transmission to CDC	McKesson Receives Orders By	Order Shipping Window	Estimated Order Delivery
Monday	Tuesday	Wed/Thu/Mon	Tue/Wed
Tuesday	Wednesday	Thu/Mon	Tues/Wed
Wednesday	Thursday	Mon/Tue	Wed/Thu
Thursday	Friday	Mon/Tue/Wed	Thu/Fri
Friday	Monday	Tue/Wed/Thu	Fri/Tue

KEY NOTES:

- Timeline for ordering recurs every day from April 15th through 30th, excluding weekends. Order transmission and receipt of orders only highlighted the first week for illustration purposes only.
- Orders will be reviewed and approved daily; however, VFA sites should allow for up to 2 weeks after order submission for review, processing, and shipment of the order. If vaccine inventory or accountability corrections are needed prior to order approval, VFA Program staff will notify the clinic's Vaccine Coordinator. Please respond as soon as possible to prevent delays in order approval. **Orders needing correction will be held in queue until requested corrections are resolved or orders will expire after 2 weeks of pending corrections.**
- Delivery windows are dependent on provider's days/hours of operation. Update hours in myCAvax for any holiday or temporary closures. Watch for emails regarding order confirmations, advance shipment notices of vaccine, and temperature monitoring alerts. **MCKESSON DOES NOT SHIP VACCINES ON FRIDAYS AND NO DELIVERIES ARE MADE ON MONDAYS.**
- **Orders may ship out sooner than anticipated 'orders shipped by' dates and may arrive earlier than the 'Estimated Delivery' dates.**

BAP: COVID Vaccine Supply Update

As manufacturers prepare for the **2024-2025** season, BAP Program product availability is expected as follows:

- Novavax: Latest **2023-2024** expiry is **Friday, May 31, 2024**. This product is no longer available for ordering.
- Pfizer: 12yo+ (refrigerated/never frozen) - latest **2023-2024** expiry is **Saturday, August 31, 2024**. Pfizer estimates supply will run out as soon as late **May / early June**.
- Moderna: Latest **2023-2024** expiry for 12yo+ vaccines is **late September** or better. Moderna indicates supply sufficient to meet demand between now and when **2024-2025** vaccine is available.
