

Even if your symptoms are mild, treating COVID-19 quickly can help prevent you from getting severely ill.

# GET FREE COVID-19 TREATMENT!

COVID-19 treatment is free, safe, and effective—and most adults are eligible for it.

## IF YOU HAVE A POSITIVE TEST AND ANY SYMPTOMS:

- Call your health care provider right away, or...
- If you don't have a regular health care provider or cannot see them in 24 hours, as a long-term care facility worker, you can access a FREE appointment with a health care provider by calling **Sesame Care** at **(833) 686-5051** or visiting [sesamecare.com/covidca](https://sesamecare.com/covidca) to be evaluated for treatment, or...
- You can talk to a health care provider, and get medication by visiting a **Test to Treat** site. To find a site, call: **1-800-232-0233** (TTY **888-720-7489**) or visit: [covid-19-test-to-treat-locator-dhhs.hub.arcgis.com](https://covid-19-test-to-treat-locator-dhhs.hub.arcgis.com).

## DON'T DELAY...

You must start taking COVID-19 medications as soon as possible after your **symptoms** appear.

You can help save lives by helping your residents get access to COVID-19 medications too! Refer positive residents with symptoms to a health care provider.
