

Primary Care Providers

COVID-19 is still a threat. We need YOU to protect vulnerable Californians.

Medi-Cal-eligible families have lower rates of immunization and higher rates of illness. Large economic, racial and geographic vaccination gaps exist.

You are a trusted source of health care and information!

- Most parents rely on vaccine advice and administration in their child's medical home.
- Pfizer COVID-19 vaccine can be stored in **routine** refrigerators that meet VFC standards. Ultra-low freezers are not required.

Reimbursement

- COVID-19 vaccine supplies are free.
- Receive \$40 per dose administration [reimbursement](#) for Medi-Cal patients and contracted rates for commercial insurance plans

Updates make it easier

- Contract with State TPA (Blue Shield) no longer needed.
- Smaller-volume orders of vaccine are now available.

What do I need to do?

- Review requirements and enroll in the myCAvax ordering system.
- Report administered doses to your local immunization registry within 24 hours.
- Report unused Inventory daily into VaccineFinder.
- Training and support are a click or call away: Visit the [California COVID-19 Vaccination Program website](#)
