

All Californians will be directed to [My Turn](#) to determine their eligibility and to find and make COVID-19 vaccine appointments. There are two methods to interface with My Turn.

Track 1: Full MyTurn / MyClinic Experience

My Turn

Eligibility | Scheduling | *Clinical Processing* | Submission to IIS

1. Standard onboarding time for MyTurn / MyClinic is 5-10 days depending on size and scale of implementation.
2. Providers will work closely with the onboarding team to ensure that each My Turn / MyClinic location is set up, operational readiness criteria are met, process and system training are complete, and vaccination work flow and patient data entry procedures are in place.
3. CDPH will use a “train the trainer” onboarding model. CDPH will train up to three locations per provider. Providers will be responsible for training additional locations.
4. Additional information can be found [here](#).

Track 2: Link EMR/EHR Scheduling Information into My Turn via Standard API

My Turn

EMR/EHR

Eligibility | Scheduling* | *Clinical Processing* | Submission to IIS

To be eligible to use the EMR/EHR track two solution, it is highly recommended that a provider *should* have 10+ locations planned or >10,000 vaccines in weekly capacity and meet the following criteria:

1. Commit to API integration to display available clinics. This will require effort to ensure your information is passed from your EMR / EHR to My Turn.
2. Offer full community access to schedule appointments in support of State equity goals.
3. Ensure reporting of vaccine data to the state meets IIS and CDC data requirements; additionally, you must **ensure race, ethnicity, and zip code** are turned on and required in your EHR workflow and that the data is being sent to CAIR.
4. Configure the EMR system’s landing page to direct residents to My Turn to confirm eligibility, search for an appointment and then be directed back to the EMR / EHR to complete the appointment scheduling. i.e., eligibility information must be aligned with State guidelines.

Note: The weekly survey asking for historical comorbidity and occupation data has been discontinued, but providers will need to share forward-looking information about booked appointments and capacity. More details are to follow.

* If a provider is on the EMR/EHR Track, MyTurn will still be used to determine eligibility.

Checklist for Track 2 Eligibility

	Yes	No	
1	<input type="checkbox"/>	<input type="checkbox"/>	Do you have an EHR?
2	<input type="checkbox"/>	<input type="checkbox"/>	Have you signed the TPA contract?
3	<input type="checkbox"/>	<input type="checkbox"/>	Do you have a myCAVax ID (COVID ID) and an IIS ID?
4	<input type="checkbox"/>	<input type="checkbox"/>	Does your EHR have an online scheduling portal for residents and patients to schedule a vaccine appointment?
5	<input type="checkbox"/>	<input type="checkbox"/>	Does your EHR system report immunization data to CAIR2?
6	<input type="checkbox"/>	<input type="checkbox"/>	Are you able to open up your clinics for full general population access?
7	<input type="checkbox"/>	<input type="checkbox"/>	Are you and your EHR vendor willing to develop your EHR so that it can integrate with the My Turn API?
8	<input type="checkbox"/>	<input type="checkbox"/>	Are you able to configure your EHR landing page to redirect residents to the My Turn website if they bypass utilizing My Turn to schedule an appointment?

*If you answer **NO** to any of the above questions, you are **NOT** eligible to proceed down Track 2*
