We Appreciate Your Feedback!

A short survey will automatically launch in your web browser at the conclusion of our presentation today. Please take a moment to rate today's webinar and let us know what you'd like to hear in future webinars.
Role of Providers of Pediatric Services in Ending the Pandemic

Tom Boo, MD
CDPH
Why is it important for providers of pediatric services to join the program?

• COVID vaccination in children will prevent uncommon severe pediatric cases and deaths
• Protects families (vulnerable relatives)
• Essential for return to normal school operations, allowing more parents to return to work
• Safer return to social activities
• Sufficiently high-population immunity is essential to ending the epidemic
Role of Providers of Pediatric Services in Ending the Pandemic

• Pfizer-BioNTech vaccine authorization for adolescents expanded from 16-17 years to ages 12 years and up.
• Many parents will rely on guidance from their primary care providers and prefer vaccination in trusted medical home.
• Advantages to getting all recommended vaccinations from primary care providers:
  o One stop
  o Many children have gotten behind on routine immunizations during the pandemic.
  o Recommendation to avoid other immunizations within 2-weeks of COVID-19 vaccination is expected to be changed soon.
Benefits for Patients & Providers

• Safely return to in-person school and extra-curricular activities
• Protect vulnerable people in families and the community
• Meet immunization requirements of many colleges, some camps, and other extracurricular activities
• Social gatherings and events
• Generous Vaccines for Children (VFC) reimbursement rate for COVID-19 vaccine administration
It's Time for Pediatric Vaccination in CA

As of May 9, 2021:

• 14,361,281 (45.1%) People fully vaccinated
• 5,321,693 (16.7%) People partially vaccinated
• 32,669,323 doses administered

https://covid19.ca.gov/vaccination-progress-data/
Reaching Pediatric Populations

• Providers of care to children
• School-based clinics
• Community/mass vaccination sites
• Community Health Centers
• Pharmacies
Prioritization for Enrollment & Allocation

• While vaccine supply is limited and provider network is expanding, CDPH and Local Health Departments will prioritize enrollment and allocation for higher volume providers serving more vulnerable communities.

• VFC Providers (storage standards and socioeconomic equity rationale)

https://healthyplacesindex.org/map/
Expanded EUA Authorization

• Pfizer-BioNTech vaccine is well-tolerated, has excellent safety profile in 16-to-17-year-olds

• Expanded eligibility for 12-to-15-year-olds based on small Phase III trial:
  o 2,260 adolescents 12 to 15 years of age
  o 100% efficacy and robust antibody responses
  o Well-tolerated with side effects similar to participants 16 to 25 years old
How to Enroll in the CA COVID-19 Vaccination Program

Nisha Gandhi, MPH
CDPH
CA COVID-19 Vaccination Program

Where we are now:

• Launched in mid-November
• Over 6,000 approved Providers in the program
• Program participants include Local Health Departments, large health systems, Federally Qualified Health Centers

Now we are ready to enroll Providers who have patient populations 12-to-18-years-old.
Before You Enroll

✓ Step 1: Review Program Requirements including CDC Provider Agreement
✓ Step 2: Immunization Information System (IIS)
✓ Step 3: Storage & Handling Guidelines
✓ Step 4: Enrollment Worksheet
✓ Step 5: Responsible Officers
✓ Step 6: Complete Required Training
✓ Step 7: CDC Provider Agreement in myCAvax
✓ Step 8: Blue Shield's TPA Agreement*
✓ Step 9: Onboard to My Turn*

* (optional for Providers of Pediatric Populations)
Step 1: Review Program Requirements

• Review CDC COVID-19 Vaccination Program Provider Agreement (page 3)

• Requirements include:
  o EUA agreement
  o Storage & handling
  o Vaccine documentation and reporting
Step 2: Enroll in IIS*

• Each vaccination location must be enrolled in the California Immunization Registry (CAIR) and have their own unique IIS Registry ID (e.g., CAIR Org Code).
  o Locations may not share the Organization’s IIS ID
  o Must submit data to IIS if opting not to onboard to My Turn
  o Submitting via Prep Mod or Mass Vax Module is not allowed

• If your provider location is already enrolled in CAIR2/SDIR/RIDE and has its own unique IIS ID, do not enroll again; use your existing CAIR Org Code.
Step 3: Confirm Storage & Handling Equipment Complies with CDC

- Purpose-built or pharmaceutical-grade units designed for storage of vaccines
  - Compact or large
  - Designed for refrigerated and frozen temperatures
  - Household standalone units are also acceptable
- Must be equipped with digital data logger (DDL)
  - Devices with buffered probe provide more accurate measurements
  - With current and valid Certificate of Calibration Testing

*Non-compliant equipment will delay application approval!*
Step 4: Complete Provider Enrollment Worksheet

Section A: Provider Requirements & Legal Agreement

CDC COVID-19 Vaccination Program Provider Agreement

Please complete Sections A and B of this form as follows:
The Centers for Disease Control and Prevention (CDC) greatly appreciates your organization’s (Organization) participation in the CDC COVID-19 Vaccination Program. Your Organization’s chief medical officer (or equivalent) and chief executive officer (or chief fiduciary)—collectively, Responsible Officers—must complete and sign the CDC COVID-19 Vaccination Program Provider Requirements and Legal Agreement (Section A) in myCAvax. In addition, the CDC COVID-19 Vaccination Program Provider Profile Information (Section B) must be completed for each vaccination location (Location) covered under the Organization listed in Section A.

Data Gathering Worksheet
DO NOT SUBMIT

Section B: Provider Profile Information

CDC COVID-19 Vaccination Program Provider Agreement

Data Gathering Worksheet
DO NOT SUBMIT
Step 5: Notify Responsible Officers

Section A: Responsible Officers and Provider Agreement
Identify your Organization’s responsible officers:

• Chief Medical Officer (CMO) and Chief Executive Officer (CEO) must DocuSign the Agreement* on behalf of the Organization.
  o An Organization can identify the same person as CMO and CEO.

Section B: Adding Vaccination Locations
Identify # of affiliated vaccination sites to the enrolling Organization. For each location:

• Identify Medical or Pharmacy Director or Vaccine Coordinator responsible for location’s adherence to Agreement* terms.
• Identify Provider(s) with prescription privileges licensed in California who will oversee/administer vaccine.

* CDC COVID-19 Vaccination Program Provider Agreement
Step 6: Complete Required Training

• Providers and key practice staff who are managing, handling, or administering COVID-19 vaccines must complete the required training before you submit enrollment:
  
  o Organization and Location Coordinators must complete the training in myCAvax.
  o Other staff should access the COVID-19 Required Training website.
Step 7: Complete CDC Provider Agreement in myCAvax ([https://mycavax.cdph.ca.gov/s/](https://mycavax.cdph.ca.gov/s/))
Step 8: Sign Blue Shield's TPA Agreement (optional)

• Once enrollment is approved, Providers will be given the option to join the Third Party Administered (TPA) agreement.

• Questions about the TPA agreement can be directed to TPA_Inquiry@blueshieldca.com (Note the underscore “_” between TPA and allocations)
Step 9: Onboard to My Turn Platform (optional*)

My Turn Platform (My Turn Public and My Turn Clinic) gives Providers the opportunity to have an all-in-one application for clinic management, dose accountability & reporting, public eligibility, public scheduling, and walk-in registration for vaccine clinics.

Why join My Turn?

- It's user friendly and has a network of trainers and technical assistance behind it to help you.
- Providers can set up and advertise (to their patients and/or family members) COVID-19 vaccine-specific clinics and send reminders/messages via text or email.
- All doses administered via My Turn system end up in CAIR – this enables providers to ensure doses get into the IIS if the EHR is not currently communicating with the registry AND allows for vaccination documentation of family members/patients who are not enrolled as patients.

* Only optional if submitting doses to IIS
My Turn Options

Closed Clinics

• Option 1: EHR able to send data to CAIR for child and parent: done
• Option 2: EHR able to send data to CAIR for child, not parent
  o Use EHR for child.
  o Use My Turn Clinic Walk-in for parents – indefinitely open for the pediatrician.
• Option 3: No System (Unable to send data to CAIR)
  o Use My Turn Clinic for parents and child.

Open Clinics

• Option 4: Providers wants to advertise to the public
  o 4a: My Turn proper – clinic open on My Turn public
  o 4b: EHR track for Epic or Cerner Providers
Providers Participating in the Vaccines for Children Program (VFC)

• Enrollment is separate from the VFC Program
  o VFC providers will need to enroll in the COVID-19 Vaccination Program, complete a federal participating agreement, and provide clinic information.
  o Vaccine orders will be submitted in a different system.
  o A call center is available for Providers in the COVID-19 Vaccination Program.
Key Enrollment Tips for VFC Enrolled Sites

Although vaccine enrollment & ordering systems differ from VFC’s systems, both systems converge account information into CDC’s vaccine ordering system (VTrckS).

Any changes to the info below will impact VFC shipments as well:

- Vaccine delivery address
- Vaccine Coordinators
- Coordinator contact information
- Shipping hours
Resources
Job Aids

Ready to get started?

• **Before You Enroll** (sets expectations)
• **Provider Enrollment Worksheet** (gather required provider data)
• **Enrolling Provider Organizations** (walks you through Section A)
• **Enrolling Provider Locations** (walks you through Section B)
• **Enrolling Community Health Centers** (HRSA)

Application Approved?

• **Next Steps** (critical systems & email senders, Pfizer shippers, dry ice issues)
• **Readiness Checklist** (prepare for initial vaccine shipment)
• **Provider FAQs**
