SUBJECT: New Resources to Help You #FightFlu

DATE: 11/16/17

Dear EZIZ Users,

There are two new resources available to help you communicate the seriousness of flu and promote flu vaccination with parents:

- “[Do You Know the Flu?](#),” an online toolkit from [Families Fighting Flu](#), contains sample responses to tough questions about flu vaccine, real stories of families affected by flu you can use to reinforce your recommendation, and educational resources for parents.
- “[Scarlet’s Story](#)” (2:15 min. video), a tragic story about a 5 year-old who lost her life to flu, narrated by her mom.

Visit [CDC](#) and [EZIZ](#) to find more resources to promote flu prevention this season.
