

Vaccine Tips

August 2018

August is National Immunization Awareness Month (NIAM)

Vaccines are an important part of every pregnancy. Vaccines protect the mom and her baby.

Make sure all the babies and young children in your practice are up-to-date on their immunizations.
Give them a healthy start in life.

Back-to-school preparation is more than school supplies. It includes making sure students are up-to-date on their shots.

Older kids need vaccines too. Recommend routine vaccines to all your preteen and young adult patients.

Be a role model. Make sure you are up-to-date on your shots. Help keep your team and your patients healthy.

NIAM is a campaign held every August. Let's raise awareness about the importance of vaccines for people of all ages.
