

Vaccine Tips

April 2019

April 27-May 4 is National Infant Immunization Week This year we celebrate NIIW's 25th anniversary!

Babies and toddlers need vaccines to stay protected from infectious diseases.

Make sure all the babies and toddlers in your practice are up-to-date.

Strongly recommend all age-appropriate vaccines.

Schedule the patient's next IZ visit before they leave your office.

Use your IZ registry to enhance your practice's efficiency and increase your immunization rates.
