SUBJECT: Join us for NIAM and HPV Vaccine Week!
DATE: 8/1/2019

**Join us for National Immunization Awareness Month
and California HPV Vaccine Week
August 5-10, 2019**

With August being [National Immunization Awareness Month](#) (NIAM), it's the perfect time to highlight the importance of vaccination at all ages. The CDC provides toolkits for communicating with healthcare professionals, parents, and patients, which you can find at <https://www.cdc.gov/vaccines/events/niam/index.html>.

We're kicking off NIAM by celebrating California HPV Vaccine Week, August 5-10, to raise awareness among parents and the public about Human Papillomavirus (HPV) vaccination as cancer prevention.

Our call to action is simple:

- During the week of August 5-10, utilize the [suggested content](#) found on the California HPV Roundtable website to communicate with your patients and their parents about the importance of HPV vaccination.
- Whether you do a little or a lot, please help us track efforts by using **#CaliforniaHPVfree** and **#caHPVvaxweek** on social media.

The California HPV Vaccination Roundtable has provided suggested social media posts, sharable images, and copy that you can use on websites, newsletters, social media, and blogs at <http://cahpvroundtable.org/ca-hpv-vaccine-week/>.

Showing your support of California HPV Vaccine Week is showing your support of a California that is HPV cancer free!
