

Vaccine Tips

February 2019

Spread love, not flu!
Show them you care. Help protect them against flu.

- ♥ **Flu vaccine** is recommended for everyone 6 months and older: your **patients**, your **coworkers**, your **family**, and **you**.
- ♥ It's not too late in the season to **vaccinate**.
- ♥ **Reminder**: some children 6 months through 8 years require 2 doses of flu vaccine this season. Give the **2nd dose when indicated**, even if the child received the .5 formulation as their **1st dose**.
