

Vaccine Tips

November 2020

We Are Thankful For You!

Wildfires, Public Safety Power Shutoff warnings, and of course COVID-19 have affected us all. While it has been a tough year for many, your resilience has shone through. There's still an immunization gap to fill, but your vaccine orders are increasing, and hopefully with that, immunization rates.

Thank you for shifting your services and providing non-traditional immunization venues (i.e. drive-thru, curbside, etc.).

Thank you for increasing your vaccine requests to fill the immunization gap.

Thank you for keeping your digital data loggers (DDLs) up-to-date and calibrated.

Thank you for ordering and administering flu vaccine. There is still available supply so please continue to order flu doses to ensure your patients are protected.

Finally, and most importantly, we can't say it enough, **THANKYOU** for all your efforts leading to continued care and protection of your patients against all vaccine-preventable diseases.
