

Dear EZIZ Users,
Help more community members access your flu vaccination clinics or events by registering on VaccineFinder.org to display information about your location and vaccination services. VaccineFinder is a free service supported by Boston Children's Hospital in partnership with the CDC. CDPH and many other partners are promoting Vaccine Finder to help the general public find out where to get a flu vaccine this year. You can promote Vaccine Finder by sharing vaccinefinder.org or [embedding the Vaccine Finder widget](#) (in English and Spanish!) on your website.

Register now! <https://locating.health/register>.

Are you already registered with VaccineFinder.org? **Log into your account now to make sure the information about your location and vaccination services are up-to-date.** <https://locating.health/login>. Need help logging in? Email locatinghealth@healthmap.org
