

# Vaccine Shipments Resuming

Dear VFC Providers,

VFC vaccine shipments from McKesson have resumed. All pending vaccine requests are being fulfilled and will be shipped this week in the order received.

Due to the backlog of orders unable to be packed and shipped last week as a result of severe weather conditions, there may be a slight delay to the shipment and receiving of orders. Please consider the impact of delayed deliveries to any planned vaccination efforts scheduled this week.

Thank you for your patience!
