

# VFC Survey on COVID-19 Vaccination Enrollment– COMPLETE BY SEPTEMBER 8, 2021

**Dear VFC Provider,**

The California Department of Public Health is encouraging all VFC providers to enroll in the COVID-19 Vaccination Program to protect your patients against COVID-19. This is especially important for providers who are currently serving VFC-eligible patients 12 years of age and older, who may not be vaccinated or need their second dose. Additionally, in anticipation of booster vaccinations recommendations, and the potential approval of vaccinations for pediatric patients in the coming months, the CA Department of Public Health is encouraging all VFC providers to enroll in the COVID-19 Vaccination Program now, ahead of COVID-19 vaccine approval for children under 12 years of age. Currently there are approximately 1,800 VFC Providers who are not yet participating in the COVID-19 Program.

The California Vaccines for Children Program would appreciate a few minutes of your time to provide important feedback about ongoing COVID-19 vaccination efforts among VFC providers. This survey will help us coordinate with the COVID-19 Program on the best ways to support enrollment and ongoing participation of VFC providers in the COVID-19 vaccination program.

**Survey Link:** <https://www.surveymonkey.com/r/VFCCOVIDEnroll2021> .

Please complete one survey per practice.

Please feel free to reach out to [COVIDCallCenter@cdph.ca.gov](mailto:COVIDCallCenter@cdph.ca.gov) if you have any questions regarding the contents of the survey or the State COVID-19 Vaccination Program.

As a final reminder, the CalVaxGrant deadline is 9/10. Eligible providers should apply by following the link below to receive up to \$55,000 in funding to support COVID-19 vaccination efforts: <https://www.phcdocs.org/Programs/CalVaxGrant>.

Thank you for your time.
