

EZIZ Update

Immunization Branch

To keep children healthy for summer camp and other important activities, take time now to ensure they are up to date with their vaccines, including doses delayed during the pandemic:

- Flag medical records when a child is behind or due for vaccination.
- [Send reminders](#) to families whose children are behind on immunizations.
- Offer vaccination-only appointments or hold special vaccination clinics.
- Check patients' charts at the beginning of each clinic session to see who is due for vaccines.
- Make a strong recommendation for vaccines during every patient encounter. Remember that [COVID-19 and other vaccines can be co-administered](#).
- Schedule follow-up visits before the family leaves the clinic.
- Use [social media](#) to inform families of important vaccination and COVID-19 information and updates.
- Assess and administer needed vaccines when children come in for sick visits.
