

2022 Immunization Schedules

CDC 2022 Recommended Immunization Schedules for healthcare providers and the public have been updated and are available online (below). Please print and post these schedules in your clinic and forward this communication to your immunization staff.

For Healthcare Providers:

- [Recommended Immunization Schedule for Children and Adolescents Age 18 Years or Younger, 2022](#)
- [Recommended Immunization Schedules for Adults, 2022](#)

For Everyone, in Easy-to-Read Formats:

- [Immunization Schedule for Infants and Children, 2022](#) Includes PDFs in English and Spanish
- [Immunization Schedule for Preteens and Teens, 2022](#) Includes PDFs in English and Spanish

For additional schedules and resources, including the new adult [Pneumococcal Vaccine Timing](#) guide for healthcare workers, please visit EZIZ's page on [schedules and recommendations](#).
