

January 31, 2025

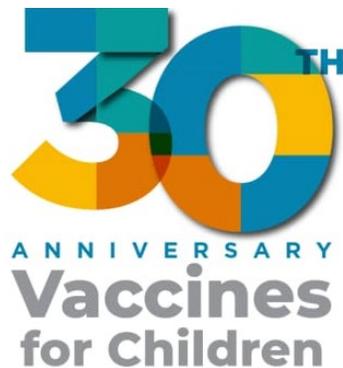

Happy 2025, VFC Providers!

Happy New Year
2025

As we embark on this new year, we look forward to continuing our important work together in vaccinating and protecting Californians.

Let's continue protecting patients against vaccine preventable diseases, especially respiratory viruses by vaccinating through these winter months!

- Flu and COVID-19 are still circulating at HIGH levels. Encourage patients to get immunized— it's not too late!
- Reminder: RSV immunization is recommended for pregnant patients through the end of January and infants through the end of March.
- Make sure you have stock of flu, COVID, and RSV vaccines to protect your patients!

The VFC Team is thrilled to announce that the VFC Program is celebrating its 30th anniversary this year! We want to express our heartfelt gratitude for your dedication to helping patients stay safe and healthy.

Thank you,
