May We Stay Safe: Reminders When Handling and Administering Vaccines!

When receiving vaccine shipments from McKesson, remove and stop the TagAlert temperature monitor!

- Remove the TagAlert temperature monitor located inside the inner box next to the vaccine.
- Then, follow the recipient instructions on the blue card.
- See **TagAlert Information** section on [McKesson flyer](#) sent with all their shipments for more information.

Properly report adverse events or vaccine administration errors to VAERS, VERP, or MedWatch.

- Ensure patient safety and report any adverse reactions after administering a vaccine to the [Vaccine Adverse Event Reporting System \(VAERS\) website](#).
- Any errors of incorrect dosing, wrong/expired product or wrong administration site can be reported using the [Vaccine Error Reporting Program \(VERP\) form](#).
- Report nirsevimab/Beyfortus™ adverse events and immunization errors to [MedWatch](#) (the FDA program).
- Follow the [CDPH guide](#) to report any adverse immunization events or administration errors.

Thank you for all you do to protect VFC patients!
