## VFC Vaccine Order Form

VFC providers will order COVID-19 vaccine using the same order process they do for all other routine vaccines on the VFC order form of your myCAvax account. If it is not yet time for you

to place your routine VFC vaccine order, **you may submit a supplemental VFC vaccine order for COVID-19**. If you have recently submitted a VFC vaccine order without COVID-19 vaccine, and your order has not yet been approved, the VFC Program will be sending the order back to you as “Corrections Needed” to give you an opportunity to add COVID-19 doses to your request.

## Return Any Remaining 2024-2025 COVID-19 Vaccines

Please remove any remaining doses of the 2024-2025 COVID-19 vaccine products from your inventory. As you complete a return form in myCAvax, report them as spoiled and return to McKesson like you would any other unopened spoiled or expired vaccine. Please view the [Recording Returns and Waste job aid](#) here (myCAvax login credentials required). The 2024-2025 COVID-19 vaccine products will remain on the order form only to report doses administered since your last order prior to deauthorization. Do NOT report those as on-hand inventory. Enter zero if not applicable.

Thank you,
