2025-2026 RSV Immunization Shipments Week of 9/15/2025

Dear VFC Provider,

The California Vaccines for Children (VFC) Program will continue processing initial orders of nirsevimab (Beyfortus®) for providers who have pre-booked. We will notify providers who submitted pre-book for clesrovimab (Enflonsia™) once this product is available for ordering.

To complete providers' initial nirsevimab immunization supply prior to the start of this year's RSV season (RSV season in California is from October through March):

- VFC will process an additional 15% of providers' approved nirsevimab pre-book.
 - This totals to 37.5% of pre-booked nirsevimab doses that have been processed since August.
- Orders will be processed at the end of this week.
- Expect shipments to arrive the week of September 15, 2025.

Providers that pre-booked nirsevimab do NOT need to submit a VFC order form to receive their initial shipments. If you did not pre-book RSV monoclonal antibodies, doses will be allocated based on available supply.

IMPORTANT: If your clinic is NOT able to receive shipments during this period, please notify the VFC Program right away and update your availability in myCAvax by indicating a temporary closure to prevent shipping incidents leading to immunization spoilage. For more details on submitting a temporary closure in your myCAvax account, click on the ["Managing myCAvax Provider Accounts"](#) Knowledge Center Resource.

This round of shipments will conclude the automatic shipments of nirsevimab for providers that pre-booked. Once additional supply becomes available the week of September 22, 2025, remaining pre-booked doses will be allocated to your account. Once doses are allocated, you may request RSV immunization on your [myCAvax](#) routine VFC order form. Continue to request RSV orders through the remainder of the RSV season, up to your allocated amount. If you need additional allocations, please reach out to the VFC Program at 877-243-8832 or

myVFCvaccines@cdph.ca.gov.

Thank you,

California Vaccines
for Children Program
