

65% of Kids Not Vaccinated!

Over 65% of California children ages 5-11 years have yet to receive 1 dose of COVID-19 vaccine, and this is [even higher in children living in California's poorest neighborhoods \(79% not vaccinated\)](#), many of them who may be receiving routine medical care at your practice.

The California Vaccines for Children (VFC) Program invites you to join a special webinar to learn about the current state of COVID-19 disease and vaccination coverage among California children and how VFC providers can help.

Immediate action needed: Please register for one of two webinars with Dr. Erica Pan, State Epidemiologist, on the current state of the COVID-19 pandemic and low vaccination rates of underserved California children.

When (choose one):

- [Wednesday, February 2 at 12:30PM - 1:30PM \(register\)](#) **OR**
- [Thursday, February 3 at 4:00PM - 5:00PM \(register\)](#)

Topics discussed:

- Update on vaccination coverage among children and our path towards vaccine equity
- The latest news on the Omicron variant and its impact on children
- Update on the timeline for under 5 year old COVID-19 vaccine authorization
- **Exclusive to VFC Providers** – Additional grant opportunities, plus COVID-19 billing and reimbursement information
- Overview of enrollment process in the COVID-19 vaccination program

Who's Invited (intended for VFC providers only):

- Healthcare providers
- Practice managers

- Healthcare administrators

Thank you for your support in this critical effort to vaccinate California's children.
