

## RSV Vaccine Special Ordering Now Closed

Dear VFA Provider,

RSV Vaccine Special Ordering is now closed. CDC has placed allocations on RSV vaccines to help facilitate equity across jurisdictions. Considering the high demand and the limited supply available through VFA Program, we have now depleted the allocation we have received. As a result, both Abrysvo and Arexvy are temporarily unavailable for ordering.

The VFA Program expects to receive additional allocations of RSV vaccines and to have the vaccines available for ordering during the next quarterly order cycle in January 2024.

Abrysvo and Arexvy orders that have already been approved will be processed and shipped. Given that the 317-funded RSV vaccine supply will be allocated, doses must be administered to VFA eligible (uninsured and underinsured adults) patients only.

Questions? Email us at [my317vaccines@cdph.ca.gov](mailto:my317vaccines@cdph.ca.gov). Visit the [VFA Program Webpage](#) and [VFA Resources Webpage](#) for more program information.

Thank you,

California Department of Public Health | Immunization Branch  
Vaccines for Adults (VFA) Program
