

ACTION REQUIRED: 2023 VFA Satisfaction and End-of-Year Survey

Dear VFA Provider,

The California Department of Public Health, Immunization Branch is conducting a survey to learn more about the providers enrolled in the Vaccines for Adults (VFA) program. The survey is **required** for all enrolled VFA providers to complete.

This survey will help the program assess your clinic's immunization needs, specifically to help with RSV vaccine planning efforts. Your input is greatly valued and will guide enhancement to our program, vaccine planning, educational resources, staff training and systems. Completing this survey will require running reports using an electronic health records (EHR/EMR) system or immunization information system (CAIR/Healthy Futures/SDIR).

Please take 5 minutes to complete and submit the [**VFA Satisfaction and End-of-Year Survey**](#).

Thank you for participating in the Vaccines for Adults (VFA) program. Your continued participation ensures that vulnerable adults maintain their access to necessary vaccines.
