

# Vaccine Tips

August 2023

**August is National Immunization Awareness Month!  
Let's get patients caught-up on immunizations!**

**National Immunization Awareness Month helps raise awareness and encourage patients to get vaccinated. Here are tips to guide your practice on IZ catch-up:**

- Send [reminders](#) to families and children who are due for doses.
- Establish an [open dialogue with parents for vaccine safety](#). Promote vaccination in your office space. See [EZIZ resources page](#) for flyers and posters.
- Use CDC's [Routine Immunizations on Schedule for Everyone \(RISE\)](#) campaign to implement strategies and utilize resources to increase routine vaccinations.
- Promote the [Child and Adolescent Assessment Tool](#) to parents so they also know which vaccines they need.
- Inform parents and guardians that they can now access their children's [Digital Vaccine Record \(DVR\)](#) to share as proof of immunization for school or childcare.

**More resources to help you immunize your patients appropriately:**

- Keep [ACIP's Child and Adolescent IZ Schedule](#) on hand for up-to-date info on vaccine doses and timing.
- Download [Vaccine Information Statements \(VIS\)](#) to educate patients on risks and benefits of each vaccine.
