FROM: CDPH
SUBJECT: New HPV Preteen Informing Materials from CDPH and CDC
DATE: 4/22/14

Announcing! New HPV Vaccine Informing Materials in English and Spanish— Plus CE Course on HPV Prevention

I. New HPV Vaccine Informing Materials/Resources

- a. [Vaccines for Your Teens and Preteens](#) **NEW** from CDPH!
A vaccine safety fact sheet with descriptions of adolescent vaccines addressing common safety concerns, and the descriptions of the diseases they prevent, featuring real life adolescent story vignettes.
- b. [How Important is HPV Vaccine for Preteens and Teens?](#) **NEW** from CDPH!
A flyer for parents of preteens on the dangers of HPV and the vaccine. After reading the flyer, nearly 80% of parents said they'd likely vaccinate their child in the next 12 months.
- c. [Did you know HPV Causes...](#) **NEW** from CDPH!
A poster for your waiting rooms and exam rooms that can serve as a conversation starter about the HPV vaccine.
- d. www.Girlology.com and www.Guyology.com
New websites for preteens on healthy sexuality.

II. Continuing Education for Health Professionals

[You Are the Key to HPV Cancer Prevention](#) on-demand 1-hour video, available for CE credit until February 26, 2016. Credit is available for Immunization Providers such as Physicians, Nurses, Nurse Practitioners, Pharmacists, Physician's Assistants, DoD Paraprofessionals, Medical Students, etc.

III. HPV Informing from CDC, Now in Spanish!

- a. New Spanish [poster and flyer](#) “If there were a vaccine for cancer, wouldn’t you get it for your kids?”
- b. 30 sec. [video PSA](#) “HPV vaccine is cancer prevention,” where doctor, and dad, Dr. Azziz explains why HPV vaccination is so important.
- c. [Four radio public service announcements](#) that are available with the CDC tag on the end or with a version that allows your organization’s info (e.g., a website) to be added at the end. The 4 PSAs Include:
 - **“Prevent Cervical Cancer with HPV Vaccine,”** focuses on educating the community that HPV vaccine can prevent Cervical Cancer in women.
 - **“HPV Vaccine is Cancer Prevention”** reminds parents and teens why girls and boys need HPV vaccine protection now—to prevent cancer later.
 - **“Dr. Recommended: HPV Vaccine is Safe and Effective”** reminds families that the HPV vaccine is safe, effective, and can prevent certain kinds of cancer when children are older.
 - **“Both Boys and Girls Should Get HPV Vaccine”** reminds parents that both their sons and their daughters can benefit from HPV vaccination.

For more information about CDPH’s HPV materials, email Rebeca.Boyte@cdph.ca.gov. For information on CDC’s HPV informing materials, email preteenvaccines@cdc.gov.
