

Dear VFA Program Participant,

Please see below for three important program updates:

VFA 1st Quarter Report

- **The first VFA Program Quarterly Report will be due on Friday, September 16.** As previously communicated, the data that needs to be submitted as part of the report will be 317 vaccine doses administered and 317 vaccine doses on hand. Failure to submit the report by the deadline may delay the processing of your next 317-funded vaccine order. To access the report go to your [MyVFCVaccines account](#) and click on “VFA Reporting”.

2nd Order for 317-Funded Vaccines

- It is also time to place your second order for 317-funded vaccines. Please submit your 317 vaccine order by **Friday, September 16**. You may request for up to a two-month supply of 317-funded vaccines to vaccinate uninsured and underinsured adults in your practice.

2nd VFA Quarterly Webinar

Please mark your calendars for the second VFA quarterly webinar, which will take place on October 5, 2016 between 12PM-1PM PST. Based on the results of the poll administered during the first quarterly webinar, the topic of the presentation is the *Adult Immunization Schedule*. We would like to hear from you with additional details regarding what you would like us to cover at the webinar, that would be of most help to your practice. Please e-mail us back at my317vaccines@cdph.ca.gov with any suggestions regarding specific topics of interest regarding the adult schedule and which vaccine you want to find out more about. Also, note that since the content is geared toward clinicians, we suggest that the webinar should be attended by a clinician from your site.

More details, including registration information, will be sent closer to the webinar date.

Please let us know if you have any questions. Thank you for your active participation in the VFA program.
