

Dear VFA Providers,

The California Department of Public Health, Immunization Branch is conducting a survey to learn more about the Vaccines for Adults (VFA) program following its third year of operation.

Each health center is expected to complete one survey, regardless of the number of health center sites that are VFA providers. For example, if health center 'A' has ten health center sites, four of which are VFA providers, we should only receive one survey from health center 'A'.

Completion of this survey will require running reports using an electronic health records (EHR/EMR) system or immunization information system (CAIR/Healthy Futures/SDIR); therefore, we recommend that the QI Manager or Nurse Manager complete the survey. If you have questions about who should complete the survey, please coordinate with your team or reach out to VFA staff. A copy of the survey is attached.

Please complete the required survey by Tuesday, December 3, 2019.

Thank you for your participation. This feedback is extremely valuable and will help the Immunization Branch's planning efforts for subsequent years.

If you have questions, please email my317vaccines@cdph.ca.gov.

Sincerely,

The VFA Team
