

# 2020 Recommended Adult Immunization Schedule

Dear VFA Provider,

The 2020 recommended adult immunization schedule is now available!

- [Adult Immunization Schedule, ages 19 years or older](#)
- [Schedule Changes and Guidance](#)
- [Resources for Adult Patients](#)

## Key Updates:

- [HPV vaccination](#) recommended for all persons through age 26 years.
- [Td or Tdap may now be used](#) in situations where only Td vaccine has been indicated for the decennial tetanus, diphtheria, and pertussis booster vaccination, tetanus prophylaxis for wound management, and catch-up vaccination.
- **Shared clinical decision-making approach** recommended for immunization of
  - [Persons 27-45 years with HPV](#)
  - [Young adults through age 23 with MenB](#)
