

Dear VFA Provider,

The ordering period for 317-funded VFA vaccine is now open. **Please plan to submit your orders no later than Friday, July 17th, 2020.** After this date, you will not be able to place an order until the next ordering period, projected to open in late September.

UPDATED [CDC Guidance for Immunization Services during COVID-19](#): Ensure that adults receive vaccines according to the [Standards for Adult Immunization Practice](#). Older adults and those with underlying medical conditions are at increased risk for preventable disease and complications if vaccination is deferred.

Before ordering VFA vaccines, take into account your plans for the upcoming flu season. Take advantage of in-person visits for flu vaccination to immunize patients against other vaccine-preventable diseases. Consider prioritizing reminder/recall for patients with chronic conditions for specific vaccines such as PPSV23, Hep B, and Hep A, in addition to flu vaccination.
